Re: Case No. 14606: Application of Mewbourne Oil Company for approval of salt water disposal well, Eddy County, New Mexico.

Dear Mr. Jones:

At the March 3, 2011 examiner hearing on the above-referenced application, you requested information on the following wells shown on Mewbourne's C-108 that had produced from the Canyon formation:

The Yates Boyd BN Deep Well No. 5 (Unit L of Section 14, Township 19 South, Range 25 East, NMPM) was plugged and abandoned on December 28, 2009. It had produced from the Canyon formation in 1996 and 1997.

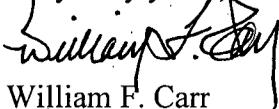

The Nearburg Morris ARCO Well No. 2 (Unit B of Section 26, Township 19 South, Range 25 East, NMPM) was plugged and abandoned on February 3, 2001. It produced from the Canyon formation in 1997.

WV 3/15/11

Also enclosed is a schematic drawing showing the current wellbore condition of the Fairchild "13" Well No. 1.

If you need additional information from Mewbourne for your review of this application, please advise.

Very truly yours,

William F. Carr
