Re: Division Case No. 13083
Roca Production, Inc.

Dear Mr. Bruce:

As you may recall, you presented to the Division Case No. 13083, the application of Roca Production, Inc. for compulsory pooling, on July 10, 2003. At the conclusion of the proceedings, counsel for the Division requested that you provide to us a copy of a pre-existing joint operating agreement that may have some impact on the issues in this case.

A considerable amount of time has passed since the hearing, and the Division has yet to receive the requested information.

Please be advised that if the requested information is not received by the Division on or before March 15, 2005, Case No. 13083 will be dismissed.

If you should have any questions, please contact myself or Mr. Richard Ezeanyim, Chief Engineer, at 476-3467.

Sincerely,

David Catanach
Examiner
