Oil Conservation Commissioners

Dear Commissioners,

I urge you to maintain the current New Mexico Pit Rule, which protects our water supply from drilling waste.

For the last four years, New Mexico's Pit Rule has kept drilling waste out of our water supply. I urge you to maintain this effective rule.

Sincerely,

Arbie Hansen

Oil Conservation Commissioners

Dear Commissioners,

I urge you to maintain the current New Mexico Pit Rule, which protects our water supply from drilling waste.

For the last four years, New Mexico's Pit Rule has kept drilling waste out of our water supply. I urge you to maintain this effective rule.

Personally, I cannot think of a much more important resource to protect. And, we are all aware of how fragile how our water supply has become, in light of the recent drought in NM.

Please do not be short-sighted and give in to the money and demands of oil and gas, at the expense of all of us who live here!!

Sincerely,

Diana Zavitz

Jun 8, 2012

Oil Conservation Commissioners

Dear Commissioners,

I urge you to maintain the current New Mexico Pit Rule, which protects our water supply from drilling waste.

I'm concerned about the possibility that New Mexico will make an irreversible mistake concerning ground water policy in the state.

We've made mistakes with water that we continue to pay for; having to deliver quotas to Texas and using groundwater to fill the Pecos for this purpose. Please don't take another step in the wrong direction.

Water is our most precious resource.

For the last four years, New Mexico's Pit Rule has kept drilling waste out of our water supply. I urge you to maintain this effective rule.

Sincerely,

Philip Tonne
