JAN 1 9 1978

Jo. 366

Perry R. Bass Fort North National Bank Building Fort Worth, Texas 76102

Gentlemen:

Your application of December 15, 1977, requests approval of the Na sec. 10, T. 25 S., R. 30 E., N.M.P.M., as the initial Atoka participating area for the Poker Lake unit agreement, Eddy County, New Mexico, based on the completion of unit well No. 42. Unit well No. 42 in the SWANE4 sec. 10 was completed on September 16, 1974, for a calculated absolute open flow potential of 16,594 MCF of gas per day from the Atoka interval 13,732 to 13,740. During the period from first sales in August 1976 through October 1977, the well has produced 142,966 MCF of gas, 147 barrels of oil, and 2,755 barrels of water in 347 days of actual operation.

By earlier letter of November 11, 1975, you determined, as unit operator, that unit well No. 42 was not capable of producing in paying unit quantities, and requested our concurrence in the determination. In reply, our letter of January 12, 1977, deferred concurrence until an additional six months production data could be obtained, and an economic and reserve analysis had been received from you supporting the determination.

Inasmuch as the requested analysis has not been received, it has not been determined to the satisfaction of this office whether or not unit well No. 42 is capable of producing unitized substances in paying guantities pursuant to Section 9 of the unit agreement. Accordingly, all three copies of your application for the initial Atoka participating area are returned herewith unapproved.

You are hereby requested to submit your present determination as to whether or not unit well No. 42 is capable of producing unitized substance in paying quantities, supporting such determination with the economic and reserve analysis requested earlier.

If it is established that unit well No. 42 is a commercial unit well capable of producing from the Atoka in quantities sufficient to repay the cost of drilling and operating the well plus a reasonable profit. then it will be necessary to create an initial Atoka participating area. However, if the well should prove to be non-commercial, as you believed earlier, then a participating area will not be required by the unit agreement, and the well will be produced on a spacing basis.

Sincerely yours,

(ORIG. SGD.) JAMES W. SUTHERLAND

Re: 1978 Plan of Development Poler Lake Unit Eddy County, New Mexico

ATTENTION: Mr. Ma. Arthur Hamilton

Gentlemon:

The Coordingtoner of Public Lands has this date approved your 1973 Plan of Development for the Joker Lake Unit, Eddy County, New Mexico. Your plan calls for the drilling of no wells, but will conduct approximately 100 miles of Seisald in order to select possible drilling sites. This approval is subject to like approval by the United States Geological Survey and the New Mexico 011 Concervation

Enclosed is one approved copy for your files.

Please remit & Three (93.00) Dollar filing fee.

MAR 3 1 1978

Bass Enterprises Production Co. Attention: Mr. Jons Hansen Fort North National Bank Building Fort North, Texas, 70132

Centlemen:

Your letter of March 23, 1978, indicates that as unit operator of the Poker Lake unit agreement, Eddy County, New Mexico, you have determined that unit well No. 42, Sugares sec. 10, T. 25 S., R. 30 E., M.M.P.M., is not capable of producing unitized substances in paying quantities.

Unit well No. 42 was completed on September 16, 1978, for a calculated absolute open flow potential of 16,594 MCF of das per day from the Atoka interval 13,732 to 13,745 feet. During the period from first sales in August 1976 through Danuary 1973, unit well No. 42 has produced 155,980 NCF of gas, 147 barrels of oil, and 2,852 barrels of water in 334 days of actual operation. An engineering memorandum attached to your letter advises that an ultimate recovery of 500,000 MCF of gas is expected for the well based on production decline analysis, and that the well cost \$1,517,333 to drill and complete.

This office concurs in your determination that the Poker Lake unit well No. 42 is not capable of producing unitized substances in paying quantities pursuant to the terms of the unit agreement. This concurrence is subject to similar concurrence by the appropriate officials of the State of New Mexico.

Sincerely yours,

(ORIG. SGD.) JAMES W. SUTHERLAND

Re: Poker Lake Unit Eddy County, New Mexico

ATTENTION: Mr. Jens Hansen

Gentlemen:

The United States Geological Survey has advised this office that by your letter of March 23, 1978, to them, you have determined that unit well No. 42, SW/4NE/4 of Section 10, Township 25 South, Range 30 East, N.M.P.M., is not capable of producing unitized substances in paying quantities.

This letter is to advise you that this office concurs in your determination and the USGS determination that well No. 42 is not capable of producing unitized substances in paying quantities pursuant to the terms of the unit agreement.

Very truly yours,

PHIL R. LUCERO COMMISSIONER OF PUBLIC LANDS

Supplemental Plan of Re: Development for 1978 Poker Lake Unit Eddy County, New Mexico

Gentlemen:

With reference to our Plan of Development for 1978 covering the Poker Lake Unit, we wish to supplement this year's Plan of Development by including additional development which we anticipate transpiring before the end of the year.

1978 ACTIVITY

Seismic continues to be conducted in this unit in compliance with the 1978 Plan of Development.

ADDITIONAL DEVELOPMENT ANTICIPATED FOR 1978

Poker Lake Unit #46 - 5,000' Delaware test to be located 660' from the North line and 660' from the West line Section 5, Township 25 South, Range 31 East.

United States Geological Survey, et al. November 14, 1978 Page 2

If this Supplemental Plan of Development meets with your approval, please indicate in the appropriate space provided and return one copy for our file.

Sincerely, Jens Hansen Division Landman

1979 Plan of Development Re: Poker Lake Unit Eddy County, New Mexico

Gentlemen:

<u>6</u>.,

In compliance with Section 10 of the Poker Lake Unit Agreement, Perry R. Bass, as Operator, hereby submits for your approval a Plan of Development for 1979.

History of Past Development

We refer to our previous Plans of Development for a detailed description on this Unit. To date, we have drilled or caused to be drilled, 45 wells within the Unit area.

1978 Activity

Approximately 156 miles of seismic was conducted in order to evaluate the Unit for future development.

Poker Lake #46 - Located 660' FNL and 660' FWL, Section 5, Township 25 South, Range 31 East, was drilled to a depth of 5,000' to test the Delaware formation. The well was plugged and abandoned.

United States Geological Survey, et al. December 8, 1978 Page 2

Future Development

Poker Lake #47 - SE/4 Section 3, Township 25 South, Range 30 East, to test the Delaware formation.

Poker Lake #48 - SE/4 Section 10, Township 24 South, Range 30 East, to test the Delaware formation.

The further evaluation of the seismic data obtained from the 1978 Seismic Program may result in additional well locations.

Additional Development

The Plan of Development shall constitute the drilling obligations of the Unit Operator under the terms of the Poker Lake Unit Agreement ending December 31, 1979. Before this Plan expires, a subsequent Plan of Development will be forwarded for your approval.

Modifications

It is understood that this Plan of Development may be modified from time to time to meet changing conditions.

Effective Date

This Plan of Development shall be effective January 1, 1979.

If this Plan of Development meets with your approval, please indicate by signing in the appropriate space provided below and return one copy for our records.
