RE: **Marra No. 1 Proposed Operation**  
**660' FNL & 1980 FWL**  
**Sec 14-24S-28E: N2 Spacing Unit**  
**Eddy County, NM**

Dear Mineral Owner or Leasehold Owner,

RSC Resources, L.P. hereby proposes the reentry and completion of the Marra No.1 to the Wolfcamp interval from 10,400'-11,200'. The designated orthodox spacing unit is the N2 of section 14-24S-28E, containing approximately 320 acres. You are being provided this letter because records indicate you own an un-leased mineral interest in the lands or are a leasehold owner.

Please find the enclosed Authority for Expenditure(AFE) in the amount of \$1,502,000. Please be aware this is only an estimated cost and actual final costs may be different. If you decide to join in the operation as a working interest owner, please signify by executing the AFE in the space provided and return to RSC as soon as possible. RSC will then provide a Joint Operating Agreement to all working interest owners. Guardian Operating Corp., wholly owned by RSC, will be designated as Operator.

If you are aware of title changes, please provide details/proof. Thank you for your cooperation.

Please contact the undersigned with any questions or to discuss this matter.
