Chuck,

Lime Rock has reviewed the KC Resources proposal to convert a well to SWD in the San Andres formation offsetting LRR's ASAU. Please tell Ernie that Lime Rock will not plan on objecting to the proposal as long as injection rates and pressures remain as stated in the application.

Thanks

Chuck & David:

I have received a request from one of my other clients to help them with an application before the OCD. I will not take the matter if Lime Rock, an offset operator, has an objection to the application. I am enclosing the C-108 proposed by KC Resources. The location of the well is 2310 FSL and 330 FWL, Unit L (NW/4SW/4) of Section 18, T18S, R27E. Injection will be into the San Andres formation. Thanks.
