Mr. Litt, I have received your entry of appearance and request for notice in Case No. 9316, the application of the Oil Conservation Division upon its own motion to revise Order R-111, as amended, pertaining to potash areas of Eddy and Lea Counties, New Mexico.

No request to reopen this case has been received. All of the case file from the original case, heard in 1988, is on our website in our Imaging section. The case file itself has been sent to State Records and Archives.

Please let me know if you need anything else.

Florene Davidson
Commission Clerk
