Mark Smith served as the Commission counsel.

The meeting was called to order by Chair Bailey. Case 14784, the application of the New Mexico Oil and Gas Association, and Case 14785, the application of the Independent Petroleum Association of New Mexico, both for the amendment of certain provisions of Title 19, Chapter 15 of the New Mexico Administrative Code concerning pits, closed-loop systems, below grade tanks, sumps, and other alternative methods related to the foregoing, and amending other rules to conforming changes, were called for further deliberations. Chair Bailey announced that no public comments would be allowed at this time. Highlighted are changes that he or Theresa Duran-Saenz have made to the rule that the Commission has not seen, which represent changes to correct grammar or changes that will conform with the formatting requirements of the Records Center. The changes were discussed and accepted by the Commission in the following sections in Title 19, Chapter 15:

17.7, 17.8, 17.9, 17.10, 17.11, 17.12, 17.13, and 17.15.

The Commission then discussed and made certain changes to the following sections in Title 19, Chapter 15:

- 17.7 – Definitions
