NEW MEXICO
ASSIGNMENT AND BILL OF SALE

THIS AGREEMENT, entered into this 29th day of November, 1990, by and between Chevron U.S.A. Inc., a Pennsylvania corporation, whose mailing address is 15 Smith Road, Midland, Texas 79702 (hereinafter "Assignor") and K. C. Resources, Inc., whose mailing address is 2021 San Elijo #A108, Cardiff, California 92007 (hereinafter "Assignee").

DOES WITNESS THAT:

In consideration of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and of the performance by Assignee of the covenants, agreements, obligations and conditions hereinafter contained, to be kept and performed by Assignee, it is agreed between the parties as follows, to-wit:

1. Assignment. Assignor does hereby assign, transfer and quitclaim to Assignee, without warranty express or implied, all of Assignor's right, title and interest in the real property listed in Exhibit "A" hereto, and made a part hereof insofar and only insofar as limited therein (hereinafter referred to as the "Assigned Premises"), subject to all of the covenants and conditions hereof and the additional provisions contained in said Exhibit "A". Assignor also quitclaims to Assignee any easements, rights-of-way or other rights of ingress and egress appertaining to the Assigned Premises, excepting, reserving and retaining therefrom all other such rights unto Assignor with respect to real property not quitclaimed hereby. In the event the Assigned Premises include funds being held in suspense for the benefit of a third party or parties, Assignor hereby transfers to Assignee, and Assignee hereby accepts for the benefit of Assignor and the party or parties entitled to receive payment thereof, all monies representing the value or proceeds of production from the Assigned Premises previously held by Assignor for accounts from which payment has been suspended. Assignee, its successors and assigns are hereafter solely responsible for the proper distribution of such funds, and hereby indemnify and hold Assignor harmless from any claims therefore.

2. Bill of Sale. Assignor does hereby quitclaim unto Assignee all of Assignor's right, title and interest in and to all oil wells, gas wells, salt water disposal wells, injection wells and other wells located on the Assigned Premises, (hereinafter referred to as the "Wells") and to the personal property or equipment described in Exhibit "A" attached hereto and made a part hereof (hereinafter referred to as the "Personal Property").

3. No Warranty or Representation by Assignor. This Assignment and Bill of Sale is made on an "AS IS, WHERE IS" basis and "WITH ALL FAULTS", and WITHOUT WARRANTIES WHATSOEVER WITH RESPECT TO ANY INTEREST HEREIN QUITCLAIMED, EITHER EXPRESSED OR IMPLIED, it being expressly agreed by Assignor and Assignee that ASSIGNOR MAKES NO WARRANTIES OR REPRESENTATION WITH RESPECT TO ORIGIN, QUANTITY, QUALITY, CONDITION, MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, SAFETY OF EQUIPMENT, COMPLIANCE WITH GOVERNMENTAL REGULATIONS, TITLE TO PERSONAL PROPERTY, THE QUANTITY, VALUE OR EXISTENCE OF RESERVES OF OIL, GAS OR OTHER MINERALS PRODUCIBLE OR RECOVERABLE FROM THE ASSIGNED PREMISES, OR OF TITLE TO OR CONDITION OF THE ASSIGNED PREMISES AND RELATED FIXTURES AND IMPROVEMENTS. All descriptions set forth herein and all information heretofore or hereafter furnished Assignee by Assignor concerning the Assigned Premises, Wells and Personal Property, and the operation thereof, have been and shall be furnished solely for Assignee's convenience and have not constituted and shall not constitute a representation or warranty of any kind by Assignor, and any reliance thereupon by Assignee shall be at Assignee's sole risk and liability.

4. Reservations. All oil in tanks above the pipeline connections from the Wells to the tanks as of 7:00 A.M. on the effective date hereof is not to be part of this agreement, but shall remain the property of Assignor and shall be delivered to the pipeline company for the account of Assignor. All gas produced and the proceeds of gas produced prior to 7:00 A.M. on the effective date hereof shall likewise not be part of this agreement but shall remain the property of Assignor. With the exception of natural gas imbalances, Assignor also reserves and retains all claims and causes of action Assignor may have, as of the effective date, against the purchaser or purchasers of oil or gas from the properties covered by this Assignment and Bill of Sale. This agreement further does not include any equipment or lines of the purchaser or purchasers of oil and gas from the Assigned Premises and does not include any tools, pulling machines, trucks or other equipment that may be located temporarily on the Assigned Premises, and Assignor shall have the right at any time to remove the same from the Assigned Premises.

Assignor shall invoice Assignee for Assignor's share of ending oil tank inventories, and Assignee shall pay such invoice within 30 days of receipt. Assignor shall value the ending oil inventory, and Assignee agrees to pay such invoices, at the value Assignor would have received if oil had been sold to Assignor's oil purchaser on the effective date of sale.

Assignor shall give Assignee reasonable notice of the final gauging of oil inventories, and Assignee shall have the option to jointly gauge such inventories. Assignee and Assignor shall acknowledge in writing the results of

final gauging. Regardless of whether Assignee participates in gauging, the results of Assignor's final gauging shall be binding upon Assignee.

5. Indemnity of Assignor. (a) In those instances where Assignee succeeds Assignor as operator of Wells in which Assignor's interest is hereby quitclaimed, Assignee agrees to operate and plug and abandon all such Wells in accordance with all applicable governmental laws, rules and regulations. In those instances where Assignee is to succeed Assignor as a working interest owner but not as operator of Wells in which Assignor's interest is hereby quitclaimed, Assignee agrees to assume any responsibility which Assignee as a working interest owner in such Wells may have under applicable governmental laws, rules and regulations concerning plugging and abandonment of such Wells. In any instance where Assignee hereunder becomes responsible or liable for plugging and abandonment under this paragraph, Assignee agrees to release, protect, indemnify and hold Assignor harmless from any and all liabilities arising from Assignee's failure to plug and abandon such Wells. Any future assignment by Assignee of any interest acquired hereunder shall reference and describe Assignee's obligations to Assignor set forth herein.

(b) Assignee agrees to protect, indemnify and hold Assignor harmless from and against any and all liability, loss, damage, injury, claims, demands and causes of action therefor asserted or filed after the effective date hereof in any way arising from operations or activities related to the Assigned Premises, Wells and Personal Property and the contracts and agreements appertaining thereto including but not limited to acts or omissions of Assignor, based upon any theory of negligence, willful misconduct, liability without fault or other.

6. Liability of Assignee. Assignee shall observe and comply with all covenants, terms and provisions, express or implied, contained in the agreements, leases, easements and all other contracts appertaining to the Assigned Premises, Wells and Personal Property, whether or not such agreements, leases, easements and other contracts are correctly and completely listed and/or identified on the Exhibits hereto.

7. Effective Date. This agreement shall be effective as of 7:00 A.M. on the 1st day of December, 1990.

8. Purchase and Sale Agreement. Reference is made to that certain Purchase and Sale Agreement between Assignor as Seller and Assignee as Buyer dated October 12, 1990, which agreement shall govern as to responsibility between the parties for payment of taxes, assumption of Assignor's gas production account, whether over or under produced, and other matters stated therein but not stated in this agreement. However, should the terms and provisions of said Purchase and Sale Agreement conflict with the terms and provisions of this agreement, then the terms and conditions of this agreement shall prevail.

9. FERC Order 451. (a) Assignor hereby reserves to itself, its successors and assigns, the right to initiate "good faith negotiation procedures" pursuant to FERC Order 451 and 18 C.F.R. § 270.201 as to any eligible gas sales contracts covering all or any of the property assigned hereby. Assignee hereby waives any and all rights it might otherwise have to initiate such procedures as to such gas sales contracts, such right being reserved exclusively to Assignor.

(b) If Assignor initiates good faith negotiation procedures under Order 451, pursuant to the rights reserved in the foregoing paragraph, Assignee recognizes and agrees that any gas sales contracts assigned to Assignee pursuant to this agreement (whether expressly or impliedly assigned, and whether or not such assignment is accomplished by a separate instrument) may be affected and modified by the result of such procedures, it being understood, however, that Assignee shall have the right and obligation to negotiate directly with the gas purchaser with respect to the gas assigned hereby. It is understood that the results of such procedures may include, but not be limited to, a reduction in the contract price for Assignee's gas or a release of the gas purchaser's obligation to buy such gas.

10. Transportation Credits Under FERC Order 500. (a) Assignee agrees that it will not, without Assignor's prior written permission, which permission may be granted or withheld at the sole discretion of Assignor, tender or permit natural gas produced from the properties hereby assigned to be transported on any interstate pipeline under authority of 18 C.F.R. Part 284, unless such pipeline has first agreed in writing to waive any right it might otherwise have, pursuant to Federal Energy Regulatory Commission Order No. 500, Docket No. RM87-34-000, any further or final order or rule in such docket, or any subsequent rule or order having similar subject matter, to apply credits for such transportation against take-or-pay or take-and-pay obligations of such interstate pipeline under any contract with Assignor.

(b) It is understood that interstate pipelines may refuse to transport under 18 C.F.R. Part 284 gas produced from the properties hereby assigned unless Assignor agrees to offer take-or-pay or take-and-pay credit to such pipelines, and the parties hereby agree that Assignor may withhold such an offer at its sole discretion, even if the result is to completely bar Assignee's gas from the properties hereby assigned from open access transportation in such pipelines. Notwithstanding the foregoing, Assignor agrees to execute offers of credit necessary to render the assigned gas eligible for open access transportation if Assignor determines, in its sole discretion, that such gas is exempt from permitting pursuant to FERC rules and regulations or that Assignor can otherwise execute such offers of credit without risk of adverse economic consequences to

Assignor. Any offers of credit executed by Assignor pursuant to this provision shall be limited in scope or term as Assignor deems necessary.

(c) If and to the extent that Assignor's rights and obligations under a gas purchase contract with an interstate pipeline (hereinafter the "Assigned Contract") are assigned to Assignee as part of this transaction, in whole or in part, and regardless of whether such contract rights and obligations may be assigned by implication herefrom or by a separate instrument, Assignee, by accepting this assignment, agrees to execute upon Assignor's request any and all offers of credit or other agreements that may be required under said Order 500 to accomplish or facilitate the transportation by such interstate pipeline of any gas owned by Assignor. Assignee understands and agrees that it may be required to grant such interstate pipeline credits against both past and current take-or-pay or take-and-pay obligations of the Assigned Contract, without any corresponding benefit to Assignee, in order to render Assignor's gas eligible for transportation on such pipeline.

(d) In the event Assignee violates any of the provisions of this Article, Assignee shall be liable to Assignor for all actual damages incurred by Assignor as a result thereof, which damages shall include, but not be limited to, the monetary value to Assignor of any take-or-pay or take-and-pay credits which Assignor is required to grant or is deemed to have granted as a result of Assignee's actions in violation of this Article. Upon prevailing in any action to enforce the provisions of this Article, Assignor shall also be entitled to recover its reasonable costs and attorney fees. The provisions of this Article shall run with the real property interests hereby assigned and shall bind and inure to the benefit of the parties hereto and their respective successors and assigns.

11. Judicial Review of FERC Orders 451 and 490. Assignee understands and agrees that Federal Energy Regulatory Commission (FERC) Order Nos. 451 and 490 are presently undergoing judicial review and that the final result of such review may impact (1) the market or purchaser to which gas produced from the properties hereby assigned may lawfully be sold, and/or (2) the maximum lawful price at which such gas may be sold. Assignor makes no representations or warranties as to the outcome of such judicial review and Assignee hereby accepts all risks that such judicial review may result in a remand, vacation, suspension, or modification of such FERC Orders in a manner detrimental to Assignee.

12. Notice of Possible FERC Jurisdiction and/or Contract Negotiation. Assignee is hereby advised that the property which is the subject of this instrument may have been subject to FERC jurisdiction and affected by contract renegotiation, settlement and/or abandonment procedures pursuant to FERC Orders 451, 490, and/or 500. If necessary, Assignor reserves the exclusive right to renegotiate any settlement or contract affected or invalidated by court action.

13. Call on Oil. Assignor shall have the option, exercisable at any time and from time to time by 30 days written notice, to purchase or designate a purchaser of the crude oil attributable to the Assigned Premises. The price to be paid to Assignee shall be the current market price when produced which is paid for oil of like gravity and quality in the field where said Assigned Premises are located.

In the event Assignor fails to exercise the option to purchase provided above, then Assignee may sell and dispose of such production in such manner and upon such terms as it may elect only after Assignor has been so notified, in writing, and has elected not to purchase or designate a purchaser. In the exercise of this option to purchase, Assignor will not assume or retain any responsibility for division order maintenance.

14. Gas Sales Contracts. The natural gas produced from all or a portion of the Assigned Premises has heretofore been committed to the following Gas Purchase Contract: Gas Purchase Contract # SG-5190, dated January 1, 1971, by and between Chevron U.S.A. Inc. (Seller) and Phillips Petroleum Company (Purchaser). Therefore, during the life of said identified contract and any successor or replacement contract thereto, none of the natural gas produced from the Assigned Premises shall be committed to any other gas purchase contract, and, with respect to or bearing upon the interest acquired by Assignee in the Assigned Premises, Assignee hereby agrees to comply with and perform the duties and obligations imposed upon Assignor under said gas purchase contract. The foregoing restriction may be removed if Assignee obtains from the purchaser of said natural gas a release of that gas from the aforementioned identified contract, or successor, or replacement contracts thereto.

15. Successors and Assigns. The terms hereof shall inure to and be binding upon the respective heirs, successors and assigns of Assignor and Assignee.
