Case 15008

Dear Florene:

Enclosed for filing, on behalf of CML Exploration, LLC, are an original and one copy of an application for compulsory pooling, *etc.*, together with a proposed advertisement. The advertisement has also been e-mailed to the Division. Please set the application for the June 27, 2013 Examiner hearing. Thank you. The parties being pooled are highlighted in yellow on the attached list.

Very truly yours,

  
James Bruce

PROPOSED ADVERTISEMENT

Case No. 15008 :

*Application of CML Exploration, LLC for a nonstandard oil spacing and proration unit, unorthodox oil well location, and compulsory pooling, Lea County, New Mexico.* Applicant seeks an order approving a non-standard oil spacing and proration unit comprised of the E/2SW/4 of Section 8, Township 10 South, Range 38 East, N.M.P.M., Lea County, New Mexico, approving an unorthodox oil well location, and pooling all mineral interests from the surface to the base of the Devonian formation underlying the non-standard unit. Applicant proposes to drill the Harris Well No. 1 at an unorthodox location 1357 feet from the south line and 1565 feet from the west line of Section 8, to a depth sufficient to test the Devonian formation, and will dedicate the E/2SW/4 of Section 8 to the well. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 15-1/2 miles east-southeast of Crossroads, New Mexico.

APPLICATION OF CML EXPLORATION, LLC  
FOR A NON-STANDARD OIL SPACING AND  
PRORATION UNIT, UNORTHODOX OIL WELL  
LOCATION, AND COMPULSORY POOLING,  
LEA COUNTY, NEW MEXICO.

2013 MAY 28 P 3:45

Case No. 15008

APPLICATION

CML Exploration, LLC applies for an order approving a non-standard oil spacing and proration unit comprised of the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8, Township 10 South, Range 38 East, N.M.P.M., an unorthodox oil well location, and pooling all mineral interests from the surface to the base of the Devonian formation underlying the non-standard unit, and in support thereof, states:

1. Applicant is an interest owner in the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8, and has the right to drill a well thereon.
2. Applicant proposes to drill the Harris Well No. 1 at an unorthodox location 1357 feet from the south line and 1565 feet from the west line, to a depth sufficient to test the Devonian formation, and will dedicate the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8 to the well in all formations.
3. The target formations are developed on the Division's statewide rules, with 40 acre spacing and wells to be located no closer than 330 feet to a quarter-quarter section line.
4. One well will drain reserves underlying the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8. Therefore, applicant requests that a non-standard spacing and proration unit comprised of the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8 be dedicated to the well.
5. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8 for the purposes set forth herein.

6. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling and completion of the well, or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners underlying the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8, pursuant to NMSA 1978 §§70-2-17, 18.

7. The granting of this application will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Approving a non-standard oil spacing and proration unit comprised of the E $\frac{1}{2}$ SW $\frac{1}{4}$  of Section 8;
- B. Approving an unorthodox oil well location;
- C. Pooling all mineral interests from the surface to the base of the Devonian formation underlying the non-standard unit;
- D. Designating applicant as operator of the well;
- E. Considering the cost of drilling and completing the well, and allocating the cost thereof among the well's working interest owners;
- F. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- G. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

A handwritten signature in black ink that reads "James Bruce". The signature is written in a cursive style with a large, prominent "J" and "B".
