Case No. 4F
Exhibit No. 4F

Mr. Newell:

Marshall & Winston, Inc. is proposing the drilling of a second Bone Spring formation horizontal well in the above described lands. From the information available to us in the federal records and the Lea County, New Mexico records, you appear to own a working interest in the lands.

Enclosed you will find:

1. Operating Agreement dated August 20, 2012, along with an extra set of signature pages.
2. Two copies of Memorandum of Operating Agreement and Notice of Lien and Mortgage.
3. Two copies of an AFE covering the TJG Federal 3 #1H Well.
4. Copy of Drilling Opinion dated October 24, 2011.

If you want to participate, we ask that you sign the extra copy of the signature page, one copy of the Memorandum of Operating Agreement and one copy of the AFE before returning them to us. Please note that your signatures will need acknowledgments from a notary public on the operating agreement and Memorandum. You should also include a drilling information letter in the packet so drilling reports and documentation on the well can be delivered properly. Because of the significant cost of the well, it is possible we may require prepayment of dry hole expenses.

However, if you do not want to participate, you need to get in touch with me and we can discuss a trade for your interest. Should you have any questions regarding this matter, please do not hesitate to contact us. Your attention to this matter is appreciated.

Very truly yours,

Dear Mr. Newell:

In the packet sent to you by Marshall & Winston, Inc. containing the letter dated August 22, 2012, it has been discovered that there was an error in the description of lands on certain pages of the operating agreement. Please be advised the above acreage is the correct description for the lands on which we will drill the new well. The range is 32 East, not 35 East.

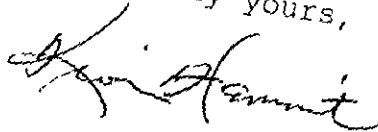

Enclosed are replacement pages for the operating agreement to be substituted in your copy:

1. Cover Page.
2. First page of Exhibit "A".
3. Exhibit "A" of Memorandum of Operating Agreement.

Dear Mr. Newell:

Previously, along with a letter dated August 22, 2012, you were mailed a packet concerning the drilling of the above captioned well. So far, we have not received any signed paperwork from you. If this is a drilling opportunity you do want to be in, Marshall & Winston asks that you sign the necessary documentation and return that to us. However, should you not want to participate, it will be appreciated for you to contact me so a trade can be discussed for your interest.

Another of the working interest owners, COG Operating, LLC, had concerns with certain provisions in the operating agreement. Marshall & Winston is agreeable to their requested changes. We ask that you substitute the enclosed pages for the corresponding pages in your possession.

Replacement Page 2 to the operating agreement substitutes "one-eighth (1/8)" for "those existing" in Line 15. Replacement Page 10 modifies the casing point election in Lines 1-13 to accommodate the differences between vertical wells and horizontal wells.

Marshall & Winston appreciates your attention to this matter.

Very truly yours,

Dear Mr. Newell:

Marshall & Winston, Inc. has two times earlier contacted you about the planned drilling of the above captioned well. Be advised that we are proceeding with those plans. Should you want to be involved in this drilling activity, we need you to sign and return the paperwork provided with the letter dated August 22, 2012. If you no longer have that paperwork but are interested in participating, let us know and we will replace that documentation.

Should you not wish to participate, you are asked to contact me so we can discuss a trade for your working interest. Marshall & Winston appreciates your attention to this situation.

Dear Mr. Newell:

As Marshall & Winston, Inc. moves closer to getting the TJG 3 #1H commenced, we want to clarify a point. The well unit will be the S/2 of Section 3, T19S, R32E, Lea County, New Mexico. Should the well be successful, we will have the opportunity for additional drilling in the unit.
