Dear Sir:

I am the surface owner where the referenced disposal well is located. The well has been inactive for some time and recent tests indicate the possibility of fresh water contamination. I am requesting that the subject well be plugged and the associated pit be closed. I would offer fill for the pit at no charge.

The field where the well is located is currently planted in cotton. It is my hope that the well could be plugged this winter after harvest. I appreciate your help in this matter and look forward to hearing from you.

Sincerely,

*9/3/04-*

Gary W. Fonay
