Re: Oil Conservation Division Case No. ~~12887~~ 13519: Application of Mewbourne Oil Company for compulsory pooling, Eddy County, New Mexico.  
Order No. R-12411.

Dear Mr. Fesmire;

In early September, 2005, the Division entered Order No. R-12411 which granted the application of Mewbourne Oil Company in the above-referenced case and pooled all uncommitted interests from the surface to the base of the Morrow formation underlying the W/2 of Section 21, Township 20 South, Range 25 East, NMPM, Eddy County, New Mexico in the following manner:

The W/2, forming a standard 320-acre gas spacing and proration unit for all formations or pools spaced on 320-acres within this vertical extent,

the NW/4, forming a standard 160-acre gas spacing and proration unit for all formations or pools spaced on 160-acre within this vertical extent, and

the NW/4 NW/4, forming a standard 40-acre spacing and proration unit for all formations or pools spaced on 40 acres within this vertical extent.

These pooled units are to be dedicated to the applicant's Pine Box "21" Federal Com Well No. 1 (API NO. 30-015-34104) which Mewbourne proposes to drill at a standard well location 1310 feet from the North and West lines (Unit D) of Section 21.

HOLLAND & HART<sup>LLP</sup>

Order No. R-12411 provides that if the operator does not commence drilling the proposed well on or before November 10, 2005, the order shall be of no effect unless the operator obtains a time extension from the Division Director for good cause. Mewbourne plans to drill the Pine Box "21" Federal Well No. 1, but is encountering delays in obtaining a drilling rig that will make it impossible to commence drilling on or before November 10, 2005. As result, Mewbourne requests that the commencement of drilling provision in Order Paragraph 4 of Order No. R-12411 be extended through February 10th 2006.

Your attention to this request is appreciated.

Very truly yours,

William F. Carr  
Attorney for Mewbourne Oil Company
