BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

RECEIVED OCD

APPLICATION OF MEWBOURNE OIL
COMPANY FOR COMPULSORY POOLING
AND AN UNORTHODOX GAS WELL
LOCATION, EDDY COUNTY, NEW MEXICO.

2014 JUN 16 P 3:19

Case No. 15171

APPLICATION

Mewbourne Oil Company applies for an order (i) pooling all mineral interests in the Wolfcamp formation underlying the E½ of Section 35, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico, and (ii) approving an unorthodox gas well location, and in support thereof, states:

1. Applicant is an interest owner in the E½ of Section 35, and has the right to drill a well thereon.
2. Applicant proposes to drill its Layla 35 W2OB Fee Well No. 3H to a depth sufficient to test the Wolfcamp formation. Applicant seeks to dedicate to the well the E½ of Section 35 to form a standard 320 acre gas spacing and proration unit for all pools or formations developed on 320 acre spacing within that vertical extent (including the South Culebra Bluff-Wolfcamp Gas Pool). The well is a horizontal well, with a surface location 185 feet from the south line and 2435 feet from the east line, and a terminus 330 feet from the north line and 2150 feet from the east line, of Section 35.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the E½ of Section 35 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests.

Therefore, applicant seeks an order pooling all mineral interest owners in the E½ of Section 35, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interests underlying the E½ of Section 35 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the Wolfcamp formation underlying the E½ of Section 35 to form a standard 320 acre oil spacing and proration unit;
- B. Approving an unorthodox gas well location;
- C. Designating applicant as operator of the well;
- D. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- E. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- F. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

James Bruce

PROPOSED ADVERTISEMENT

Case No. 15171:

Application of Mewbourne Oil Company for compulsory pooling and an unorthodox gas well location, Eddy County, New Mexico. Mewbourne Oil Company seeks an order pooling all mineral interests in the Wolfcamp formation underlying the E/2 of Section 35, Township 23 South, Range 28 East, NMPM, Eddy County, New Mexico, and approving an unorthodox gas well location in the Wolfcamp formation. The unit will be dedicated to the Layla 35 W2OB Fee Well No. 3H, a horizontal well with a surface location 185 feet from the south line and 2435 feet from the east line, and a terminus 330 feet from the north line and 2150 feet from the east line, of Section 35. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, and a 200% charge for the risk involved in drilling and completing the well. The unit is located approximately 3 miles north-northeast of Malaga, New Mexico.
