CASE NO. 15180

APPLICATION

Parker Energy Support Services, Inc., ("Parker Energy"), through its undersigned counsel, Montgomery and Andrews, P.A. (J. Scott Hall, Esq.), applies pursuant to 19.15.26.8 NMAC for an order authorizing the injection of water for disposal into the San Andres formation, San Andres SWD pool (96121), in Lea County, New Mexico. In support of its Application, Parker Energy states:

1. Applicant is the operator of the following well:

Section 24
T-21-S, R-36-E, NMPM
Lea County, New Mexico

2. The Harry Leonard NCT J No. 5 well is drilled to a total depth of approximately 4,675'. 3. Injection operations through the well will be through gravity flow conducted at an anticipated average daily injection pressure of zero psi. Applicant proposes injection of water at average daily rates of approximately 5,000 bbls and at maximum daily rates of approximately

7,500 bbls. The source of the injected fluids will be formation water from production wells that have been drilled and are scheduled to be drilled in the area.

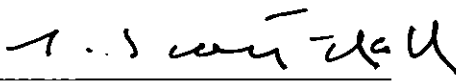

4. Applicant's proposed injection operation can be conducted in a safe and responsible manner without causing waste, impairing correlative rights or endangering fresh water, public health or the environment.

5. Applicant's original request for administrative approval was filed with the Division on May 16, 2014. Applicant's amended request for administrative approval was filed on June 18, 2014.
