**Subject:** Case 15178/BTA SWD

Mike: I will make a brief presentation on this case tomorrow. This is a marginal well which BTA wishes to convert to SWD to support other (mainly Bone Spring wells) in the area, to reduce disposal costs and make operations more economical. The SLO requested compensation for "lost" royalties, and BTA has paid them. I will explain more at the hearing. The surface owner had objected, but has now withdrawn its objection. Therefore, I will request a return to the administrative docket, but will gladly provide information necessary for the Division to approve the application.

Jim
