I've received no indication that you wish to use the hearing process to present the supplemental technical evidence requested by the examiner, so I will ask that the hearing be dismissed and that the application be processed administratively. Please let me know if I can be of any further assistance in this regard.

Merch, Billy

The hearing on the State 2 No. 1 is scheduled for this Thursday. I assume you will want to provide the supplemental information that Phillip Goetze requested directly rather than at a hearing. Accordingly, I will ask that the hearing be dismissed so the application can be processed administratively. Please confirm that this is what you want me to do.

Scott:

After reviewing the application last week, I provided a summary of items that were to be address (more information) and a disclosure of additional requirements that were to be incorporated in any order (see July 31, 2015 e-mail). At this point, the application can be processed administratively unless your client would like the opportunity present testimony. PRG

Phillip,

Do you still need me to appear at the hearing on Thursday to state this request?

Scott

Scott:

I talked with the Director about the attached correspondence for dismissal. He has requested that counsel for TLT make an appearance so that the request (along with the terms of resolution with Linn) can be made part of the record and the application remanded back to the administrative process. And, just a reminder, that the administrative review may identified issues, independent of the resolution with Linn, that may have this application back in hearing, especially with the contentious nature of injection in the Delaware production areas. Please contact me (by e-mail or phone) with any questions. PRG
