Scott:

I talked with the Director about the attached correspondence for dismissal. He has requested that counsel for TLT make an appearance so that the request (along with the terms of resolution with Linn) can be made part of the record and the application remanded back to the administrative process. And, just a reminder, that the administrative review may identified issues, independent of the resolution with Linn, that may have this application back in hearing, especially with the contentious nature of injection in the Delaware production areas. Please contact me (by e-mail or phone) with any questions. PRG
