II. Lynx Petroleum Consultants, Inc's Statement of the Case

Lynx Petroleum Consultants, Inc. (Lynx) is applying for an order pooling all mineral interests from the surface to the base of the Wolfcamp formation underlying a standard 40-acre proration unit being the NE1/4 NE1/4 of Section 8, Township 18S, Range 32E, N.M.P.M., Lea County, New Mexico.

Lynx will provide testimony that it is an interest owner in the subject acreage and that it has the right to re-enter and attempt a completion of the plugged and abandoned Amoco Production Company Federal 'DM' No. 1 located thereon. A map showing the proposed location and surrounding producing wells will be presented at hearing.

Lynx will testify that there is only one other mineral interest owner in the NE1/4 NE1/4 of Section 8, T18S, R32E, which is XTO Energy, 810 Houston Street, Fort Worth, TX 76102-6298. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the subject acreage both through written correspondence and verbally via telephone. Copies of the correspondence will be presented at hearing. Over the course of these

communications, several copies of an Authority for Expenditure were prepared and submitted to the other mineral interest owners for review and approval. The latest iteration of the AFE will also be presented at hearing.

Overhead charges will be requested conforming to the Ernst & Young Fixed-Rate Overhead Survey for 2004 adjusted for well depth and the 2005 escalation factor.

Lynx will testify to its belief that the granting of the compulsory pooling order will prevent the drilling of unnecessary wells, prevent waste of hydrocarbon resources, and protect correlative rights.

OPERATOR'S PROPOSED EVIDENCE

Witness:

Jack Scott, Owner-Partner
Lynx Petroleum Consultants, Inc.
