Re: Extension of the Expiration Date of the Trinity Burrus Abo Unit, Lea County, New Mexico.

Dear Mr. Fesmire:

The purpose of this letter is to advise you of the extension of the Expiration Date of the Trinity Burrus Unit to January 31, 2007.

On October 20, 2005, an examiner of the Oil Conservation Division heard the application of Chesapeake Operating, Inc. for statutory unitization of the Trinity Burrus Unit. Since the hearing, Chesapeake has provided the Division with a proposed order and has responded to questions from the Examiner. We believe the Oil Conservation Division will soon approve the unit but, to date, no order has been received.

The Unit Agreement is on the State / Federal / Fee Waterflood Unit form which contains the following provision:

If this agreement does not become effective on or before January 31, 2006, it shall ipso facto expire on said date (hereinafter called "Expiration Date") and thereafter be of no further force or effect, unless prior thereto this agreement has been executed or ratified by Working Interest Owners owning a combined participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date").

Since final approval of this unit cannot be obtained from the Oil Conservation Division, State Land Office and the BLM before the January 31, 2006 Expiration Date, Chesapeake Operating, Inc., designated operator in the proposed agreement, sought and has obtained extension of the Expiration Date to January 31, 2007.

At the Oil Conservation Division hearing, Chesapeake offered as its Exhibit 9 a list of all working interest owners in the unit area. A copy of this Exhibit is attached hereto as Exhibit A. The twenty-three working interest owners who have ratified the unit are shaded yellow. Together they own approximately 94% of the working interest in the proposed unit area. All of these working interest owners have decided to extend the unit Expiration Date to January 31, 2007. Attached hereto as Exhibit B are copies of letters which evidence the working interest owners' decision to extend the Expiration Date. Accordingly, the "Extended Expiration Date" of the Trinity Burrus Abo Unit is now January 31, 2007.

Very truly yours,

A handwritten signature in black ink, appearing to read "William F. Carr".

William F. Carr

Re: Extension of the Expiration Date of the Trinity Burrus Abo Unit Agreement.

Dear Ladies and Gentlemen:

On October 20, 2005, Chesapeake Operating Inc.'s application for statutory unitization of the Trinity Burrus Abo Unit Area was heard by an examiner of the Oil Conservation Division. We anticipated an order from the Oil Conservation Division in early November 2005, and a effective date for the unit of December 1, 2005. To our surprise we still have not received an order from the Division. Our representatives have met with the Division's staff and we have been advised that an order approving the unit has been finalized and should be signed in the immediate future. Chesapeake has previously obtained preliminary approvals of the unit from the New Mexico Commissioner of Public Lands and the Bureau of Land Management.

Once this Unit is approved by the Oil Conservation Division, Chesapeake will seek final approvals from the affected agencies and the unit will become effective at 7:00 AM on the first day of a calendar month following our receipt of all final approvals. We anticipate having received all approvals and having an effective unit within in the next 60-days. However, this time frame remains dependant on the Oil Conservation Division.

You have ratified the Unit Agreement. This Agreement contains a provision that provides in part as follows:

**SECTION 24: EFFECTIVE DATE AND TERM.** This Agreement shall become binding upon each party who executes or ratifies it as of the date of execution or ratification by such party and shall become effective on the first day of the calendar month next following the approval of this Agreement by the A.O., the Land Commissioner and the Commission.

If this Agreement does not become effective on or before January 31, 2006, it shall ipso facto expire on said date (hereinafter called "Expiration Date") and thereafter be of no further force of effect, unless prior thereto this Agreement has been executed or ratified by Working Interest Owners owning a combined Participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this

**EXHIBIT B**

Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date")."

When Chesapeake inserted the January 31, 2006 date in the agreement we assumed all approvals would be obtained by that time. This no longer is possible because even if all approvals are received by January 31, 2006, the unit will not become effective until 7:00 AM on the following day. We therefore have to ask you as a ratified Working Interest Owner to agree to extend the Expiration Date to January 31, 2007.

If you are in agreement, we request that you execute the copy of this letter and return it to Chesapeake Operating Company in the enclosed envelope. In the meantime, we are proceeding with our efforts to obtain all required approvals to unitize the Trinity Burrus Abo Unit Area pursuant to the New Mexico Statutory Unitization Act. If you have questions concerning this matter, please call Terry Frohnapfel at Chesapeake Operating, Inc. at (405) 810-2727 or William F. Carr at Holland & Hart, LLP (505) 988-4421.

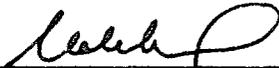

Your prompt response is needed since the Expiration Date must be extended prior to January 31, 2006.

Very truly yours,

Terry Frohnapfel

I hereby agree to extend the Expiration Date contained in Section 24 of the Unit Agreement for the Trinity Burrus Abo Unit from January 31, 2006 to January 31, 2007.

When Chesapeake inserted the January 31, 2006 date in the agreement we assumed all approvals would be obtained by that time. This no longer is possible because even if all approvals are received by January 31, 2006, the unit will not become effective until 7:00 AM on the following day. We therefore have to ask you as a ratified Working Interest Owner to agree to extend the Expiration Date to January 31, 2007.

If you are in agreement, we request that you execute the copy of this letter and return it to Chesapeake Operating Company in the enclosed envelope. In the meantime, we are proceeding with our efforts to obtain all required approvals to unitize the Trinity Burrus Abo Unit Area pursuant to the New Mexico Statutory Unitization Act. If you have questions concerning this matter, please call Terry Frohnapfel at Chesapeake Operating, Inc. at (405) 810-2727 or William F. Carr at Holland & Hart, LLP (505) 988-4421.

Your prompt response is needed since the Expiration Date must be extended prior to January 31, 2006.

Very truly yours,

  
Terry Frohnapfel

I hereby agree to extend the Expiration Date contained in Section 24 of the Unit Agreement for the Trinity Burrus Abo Unit from January 31, 2006 to January 31, 2007.

Re: Extension of the Expiration Date of the Trinity Burrus Abo Unit Agreement.

Dear Ladies and Gentlemen:

On October 20, 2005, Chesapeake Operating Inc.'s application for statutory unitization of the Trinity Burrus Abo Unit Area was heard by an examiner of the Oil Conservation Division. We anticipated an order from the Oil Conservation Division in early November 2005, and a effective date for the unit of December 1, 2005. To our surprise we still have not received an order from the Division. Our representatives have met with the Division's staff and we have been advised that an order approving the unit has been finalized and should be signed in the immediate future. Chesapeake has previously obtained preliminary approvals of the unit from the New Mexico Commissioner of Public Lands and the Bureau of Land Management.

Once this Unit is approved by the Oil Conservation Division, Chesapeake will seek final approvals from the affected agencies and the unit will become effective at 7:00 AM on the first day of a calendar month following our receipt of all final approvals. We anticipate having received all approvals and having an effective unit within in the next 60-days. However, this time frame remains dependant on the Oil Conservation Division.

You have ratified the Unit Agreement. This Agreement contains a provision that provides in part as follows:

**SECTION 24: EFFECTIVE DATE AND TERM.** This Agreement shall become binding upon each party who executes or ratifies it as of the date of execution or ratification by such party and shall become effective on the first day of the calendar month next following the approval of this Agreement by the A.O., the Land Commissioner and the Commission.

If this Agreement does not become effective on or before January 31, 2006, it shall ipso facto expire on said date (hereinafter called "Expiration Date") and thereafter be of no further force of effect, unless prior thereto this Agreement has been executed or ratified by Working Interest Owners owning a combined Participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this

**EXHIBIT B**

Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date")."

When Chesapeake inserted the January 31, 2006 date in the agreement we assumed all approvals would be obtained by that time. This no longer is possible because even if all approvals are received by January 31, 2006, the unit will not become effective until 7:00 AM on the following day. We therefore have to ask you as a ratified Working Interest Owner to agree to extend the Expiration Date to January 31, 2007.

Chesapeake has previously obtained preliminary approvals of the unit from the New Mexico Commissioner of Public Lands and the Bureau of Land Management.

Once this Unit is approved by the Oil Conservation Division, Chesapeake will seek final approvals from the affected agencies and the unit will become effective at 7:00 AM on the first day of a calendar month following our receipt of all final approvals. We anticipate having received all approvals and having an effective unit within in the next 60-days. However, this time frame remains dependant on the Oil Conservation Division.

You have ratified the Unit Agreement. This Agreement contains a provision that provides in part as follows:

**SECTION 24: EFFECTIVE DATE AND TERM.** This Agreement shall become binding upon each party who executes or ratifies it as of the date of execution or ratification by such party and shall become effective on the first day of the calendar month next following the approval of this Agreement by the A.O., the Land Commissioner and the Commission.

If this Agreement does not become effective on or before January 31, 2006, it shall ipso facto expire on said date (hereinafter called "Expiration Date") and thereafter be of no further force of effect, unless prior thereto this Agreement has been executed or ratified by Working Interest Owners owning a combined Participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this

Chesapeake Energy Corporation  
6100 N. Western Ave. • Oklahoma City, OK 73118 • P.O. Box 18496 • Oklahoma City, OK 73154-0496  
405.848.8000 • fax 405.767.4251

EXHIBIT B

Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date")."

When Chesapeake inserted the January 31, 2006 date in the agreement we assumed all approvals would be obtained by that time. This no longer is possible because even if all approvals are received by January 31, 2006, the unit will not become effective until 7:00 AM on the following day. We therefore have to ask you as a ratified Working Interest Owner to agree to extend the Expiration Date to January 31, 2007.

If you are in agreement, we request that you execute the copy of this letter and return it to Chesapeake Operating Company in the enclosed envelope. In the meantime, we are proceeding with our efforts to obtain all required approvals to unitize the Trinity Burrus Abo Unit Area pursuant to the New Mexico Statutory Unitization Act. If you have questions concerning this matter, please call Terry Frohnapfel at Chesapeake Operating, Inc. at (405) 810-2727 or William F. Carr at Holland & Hart, LLP (505) 988-4421.

Your prompt response is needed since the Expiration Date must be extended prior to January 31, 2006.

Very truly yours,

*Terry Frohnapfel*

Terry Frohnapfel

I hereby agree to extend the Expiration Date contained in Section 24 of the Unit Agreement for the Trinity Burrus Abo Unit from January 31, 2006 to January 31, 2007.

Re: Extension of the Expiration Date of the Trinity Burrus Abo Unit Agreement.

Dear Ladies and Gentlemen:

On October 20, 2005, Chesapeake Operating Inc.'s application for statutory unitization of the Trinity Burrus Abo Unit Area was heard by an examiner of the Oil Conservation Division. We anticipated an order from the Oil Conservation Division in early November 2005, and a effective date for the unit of December 1, 2005. To our surprise we still have not received an order from the Division. Our representatives have met with the Division's staff and we have been advised that an order approving the unit has been finalized and should be signed in the immediate future. Chesapeake has previously obtained preliminary approvals of the unit from the New Mexico Commissioner of Public Lands and the Bureau of Land Management.

Once this Unit is approved by the Oil Conservation Division, Chesapeake will seek final approvals from the affected agencies and the unit will become effective at 7:00 AM on the first day of a calendar month following our receipt of all final approvals. We anticipate having received all approvals and having an effective unit within in the next 60-days. However, this time frame remains dependant on the Oil Conservation Division.

You have ratified the Unit Agreement. This Agreement contains a provision that provides in part as follows:

**SECTION 24: EFFECTIVE DATE AND TERM.** This Agreement shall become binding upon each party who executes or ratifies it as of the date of execution or ratification by such party and shall become effective on the first day of the calendar month next following the approval of this Agreement by the A.O., the Land Commissioner and the Commission.

If this Agreement does not become effective on or before January 31, 2006, it shall ipso facto expire on said date (hereinafter called "Expiration Date") and thereafter be of no further force of effect, unless prior thereto this Agreement has been executed or ratified by Working Interest Owners owning a combined Participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this

**EXHIBIT B**

Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date")."

When Chesapeake inserted the January 31, 2006 date in the agreement we assumed all approvals would be obtained by that time. This no longer is possible because even if all approvals are received by January 31, 2006, the unit will not become effective until 7:00 AM on the following day.
