New Mexico Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, NM 87505

To Whom it May Concern:

McElvain Oil Company, LP, objects to the pooling applications filed by Anschutz in Division Case Nos. 15318 and 15319. We did not receive the well proposal letters until May 20, 2105 and subsequently received copies of the pooling applications on June 8, 2015. We were not contacted by anyone at Anschutz about these wells or the proposed spacing units prior to or after the filing of these pooling applications. In addition to the lack of communication on these matters, we also believe these Applications are inconsistent with the Temporary Special Rules for the Gavilan Greenhorn Graneros Dakota Oil Pool. Indeed, it appears Anschutz is attempting to use the pooling process to change the spacing in this Dakota pool without venting the issues with all of the operators in that pool.

Please note our objection to these pooling applications and thank you for your attention to this matter.

Thank you,

David McElvain
