Ernie,
Yes, Phillip and I confirmed with Gabe.
We think it best for you to ask for dismissal of this case since it has morphed and can't be supported by existing notice.

Permian TDS should apply administratively for the new and revised SWD that will have to meet Division requirements and the scrutiny of offsetting owners.

Regards,
Will Jones

Mr. Jones:

Your email is timely because today I was going to seek the Division's guidance as to how to proceed. After discussions between the principals of Permian TDS and Devon Energy, Permian has decided to change their injection interval to the Wolfcamp formation from the Queen interval as proposed under the current application. Devon does not oppose injection into the Wolfcamp. In a telephone conversation that I had with Mr. Feldewert yesterday, he was going to check with Concho, whom he also represents, as to any objection from Concho as to injection into the Wolfcamp. He felt that there would be no objection.

Assuming that Concho does not object to disposal into the Wolfcamp, may we amend the C-108 to reflect injection into the Wolfcamp and proceed administratively?

Hello Mr. Padilla,
Hope all is going well.

I am preparing for the December 17 docket.

It appears that COG and Devon both through Holland & Hart have entered appearances.

The evaluation of the deeper interval was previously mentioned.

Do you know yet whether Permian TDS intends to proceed next week with this case?

Regards,

Will Jones

Gentlemen and Ms. Davidson:

Because Permian TDS is evaluating a deeper disposal zone, which may not encounter opposition, we request another continuance to the Division's December 17, 2015 docket.

Concurrence of Michael Fedewert has been sought and obtained.
