Re: Proposed Horizontal Wolfcamp Shale Test
Salado Draw "9" W1DM Fed COM #2-H
Section 9, T-26-S, R-33-E
Lea County, New Mexico
Salado Draw Prospect

Gentlemen:

Mewbourne Oil Company ("Mewbourne") hereby proposes drilling a horizontal Wolfcamp Shale test at a surface location 320' FNL & 500' FWL and a bottom hole location 330' FSL & 500' FWL of Section 9, T-26-S, R-33-E, Lea County, New Mexico, to be called the Salado Draw "9" W1DM Fed COM #2-H well. We anticipate drilling to a vertical depth where horizontal drilling operations will commence intended to land the well horizontal in the upper Wolfcamp Shale at an approximate vertical depth of 12,500'. We then plan to continue drilling horizontally to the south in the upper Wolfcamp Shale to the proposed bottom hole location at an approximate total measured depth of 16,900'. The project area for this well will be composed of all of said Section 9.

To facilitate this project, Mewbourne again proposes forming a 640 acre working interest unit covering all of said Section 9. EOG Resources, Inc. ("EOG") owns an Oil and Gas Lease covering an undivided 50% of the mineral interests in the S/2 of said Section 9. Accordingly, EOG would have a 25% working interest in the proposed well. Enclosed are duplicate originals of Mewbourne's AFE well cost estimate for this well. Mewbourne's proposed AAPL 1989 Model Form JOA and recording memorandum for this project covering all of said Section 9 will be provided upon request.

Should you elect to participate in the proposed working interest unit and well, please return the extra set of signature pages to the JOA and recording memorandum along with an AFE reflecting execution on behalf of EOG. Please also provide your most current "Well Information" requirements. As an alternative to participation, Mewbourne would be willing to enter into the

same type of trade used for Mewbourne's recently drilled Salado Draw 9 A3CN Fed COM #1-H well.

Feel free to contact me if you have any questions or would like to discuss this proposal in greater detail. I can be reached by phone at (432) 682-3715 or via email at ssmith@mewbourne.com.

Sincerely,

MEWBOURNE OIL COMPANY

Subject: Well Proposal; Salado Draw 10 A3PA Federal #2H

Mr. Tower,

I'd like to confirm that EOG intends to go non-consent under the JOA dated July 1, 2011 in response to the well proposal for the Salado Draw 10 A3PA Federal #2H to be drilled in Section 10, 26S-33E, Lea Co., NM.

At your convenience we are also ready to discuss MOC's proposed Salado Draw 9 W1DM Fed Com #2H.

Thanks,

Cy Shook

Paul Boland just got the force pooling notice on your well in this area. Are you open for the two of us to come over tomorrow to visit on this. Hopefully wouldn't take much of your time.
