**OPPONENT'S ATTORNEY**

**STATEMENT OF THE CASE**

**APPLICANT**

Applicant seeks an order pooling all mineral interests from the surface to the base of the Morrow formation underlying the N/2 of Section 7, Township 22 South, Range 28 East, NMPM, to form a standard 320-acre gas spacing and proration unit for any and all formations or pools developed on 320-acre spacing within that vertical extent. The unit is to be dedicated to the Indian Draw "7" Com. Well No. 1, to be drilled at an orthodox gas well location in the SE/4NW/4 of Section 7. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of applicant as operator of the well, reducing the election period normally given in an order, and a 200% charge for the risk involved in drilling and completing the well.
