Subject: RE: SRO #43 & #44 well information

Randy,

Last email wouldn't allow the information for the SRO #44 as the files were too big. I am going to put both files on thumb drive and bring them to your office shortly. Thank you.

Subject: SRO #43 & #44 well information

Randy,

Attached is the information you requested on the SRO #43 and the SRO #44. Still rounding the remainder up as they do not appear complete.

Do you have any update as to the status of getting our communitization agreements signed for these wells yet?

I would like to get that issue resolved as soon as possible as well as get the remaining well data. Thanks in advance.

Attachments: 0569_001.pdf

Gentlemen,

We were checking to see how things are going in regard to COG providing Nearburg with the promised well info. Since Charles Nearburg will be in town this Thursday, we would like to be able to at least show him well info on the #43H and #44H wells (the two wells drilled across our lease in the W/2 Sec. 20-26S-28E).

Please advise when we can expect to receive the well info on these, as well as the other wells.

Thank you,

Randy Howard

Randy,

We have been gathering this up all week. I have been in Santa Fe for a NMOGA meeting and a hearing before the NMOCD. Just got back to the office this morning. I am going to sit down and go through everything to make sure you get what you need by Monday at the latest.

Aaron
