A.A.P.L. FORM 610 - MUDEL FORM OPERATING AGREEMEN

ARTICLE VI continued

If, in Operator's judgment, the well will not produce oil or gas in paying quantities, and it wishes to plug and abandon the well as a dry hole, the provisions of Article VI.E.1. shall thereafter apply.

6 Subsequent Operations:

t. Proposed Operations: Should any party hereto desire to drill any well on the Contract Arca other than the well provided for in Article VI.A., or to rework, deepen or plug back a dry hole drifted at the joint expense of all parties or a well jointly owned by all 10 the parties and not then producing in paying quantities, the party desiring to drill, rework, deepen or plug back such a well shall give the 11 other parties written notice of the proposed operation, specifying the work to be performed, the location, proposed depth, objective forma-12 tion and the estimated cost of the operation. The parties receiving such a notice shall have thirty (30) days after receipt of the notice 13 within which to notify the party wishing to do the work whether they elect to participate in the cost of the proposed operation. If a drill-14 ingrig is on location, notice of a proposal to rework, plug back or drill deeper may be given by telephone and the response period shall be 15 limited to forty-eight (48) hours, exclusive of Saturday, Sunday, and legal holidays. Failure of a party receiving such notice to reply within 16 the period above fixed shall constitute an election by that party not to participate in the cost of the proposed operation. Any notice or 17 response given by telephone shall be promptly confirmed in writing.

18 19 20

21

If all parties elect to participate in such a proposed operation, Operator shall, within ninety (90) days after expiration of the notice 22 period of thirty (30) days (or as promptly as possible after the expiration of the forty-eight (48) hour period when a drilling rig is on location, as the case may be), actually commence the proposed operation and complete it with due diligence at the risk and expense of all par-

24 ties hereto; provided, however, said commencement date may be extended upon written notice of same by Operator to the other parties, 25 for a period of up to thirty (30) additional days if, in the sole opinion of Operator, such additional time is reasonably necessary to obtain pennits from governmental authorities, surface rights (including rights-of-way) or appropriate drilling equipment, or to complete title ex-27 amination or curative matter required for title approval or acceptance. Notwithstanding the force majeure provisions of Article XI, if the 28 acress operation has not been commenced within the time provided (including any extension thereof as specifically permitted herein) and 29 if any party hereto still desires to conduct said operation, written notice proposing same must be resubmitted to the other parties in accor-30 dance with the provisions hereof as if no prior proposal had been made.

31

32 33 34

2. Operations by Less than All Parties: If any party receiving such notice as provided in Article VI.B.), or VII.D.I. (Option 35 No. 2) elects not to participate in the proposed operation, then, in order to be entitled to the benefits of this Article, the party or parties 36 giving the notice and such other parties as shall elect to participate in the operation shall, within ninety (90) days after the expination of 37 the notice period of thirty (30) days (or as promptly as possible after the expiration of the forty-eight (48) hour period when a drilling rig is on location, as the case may be) actually commence the proposed operation and complete it with due diligence. Operator shall perform all work for the account of the Consenting Parties; provided, however, if no drilling rig or other equipment is on location, and if Operator is 40 a Non-Consenting Party, the Consenting Parties shall either: (a) request Operator to perform the work required by such proposed opera-41 tion for the account of the Consenting Parties, or (b) designate one (1) of the Consenting Parties as Operator to perform such work. Con-

senting Parties, when conducting operations on the Contract Area pursuant to this Article VI.B.2., shall comply with all terms and con-

43 ditions of this agreement.

39

45 46 47

If less than all parties approve any proposed operation, the proposing party, immediately after the expiration of the applicable 48 notice period, shall advise the Consenting Parties of the total interest of the parties approving such operation and its recommendation as 49 to whether the Consenting Parties should proceed with the operation as proposed. Each Consenting Party, within forty-eight (48) hours 50 (exclusive of Saturday, Sunday and legal holidays) after receipt of such notice, shall advise the proposing party of its desire to (a) himit par-51 licipation to such party's interest as shown on Exhibit "A" or (b) carry its proportionate part of Non-Consenting Parties' interests, and 52 failure to advise the proposing party shall be deemed an election under (a). In the event a drilling rig is on location, the time permitted for such a response shall not exceed a total of forty-eight (48) hours (inclusive of Saturday, Sunday and legal holidays). The proposing party, at its election, may withdraw such proposal if there is insufficient participation and shall promptly notify all parties of such decision.

54

The entire cost and risk of conducting such operations shall be borne by the Consenting Parties in the proportions they have 59 elected to bear same under the terms of the preceding paragraph. Consenting Parties shall keep the leasehold estates involved in such 60 operations free and clear of all tiens and encumbrances of every kind created by or arising from the operations of the Consenting Parties. If such an operation results in a dry hole, the Consenting Parties shall plug and abandon the well and restore the surface location at their sole cost, risk and expense. If any well dulled, reworked, deepened or plugged back under the provisions of this Article results in a producer of oil and/or gas in paying quantities, the Conserving Parties shall complete and equip the well to produce at their sole cost and risk,

See first paragraph of Page 6a

An election not to participate in the drilling or the deepening of a well shall be deemed an election not to participate in any re-29 working or plugging back operation proposed in such a well, or portion thereof, to which the initial Non-Consent election applied that is 30 conducted at any time prior to full recovery by the Consenting Parties of the Non-Consenting Party's recoupment account. Any such 31 reworking or plugging back operation conducted during the recoupment period shall be deemed part of the cost of operation of said well 32 and there shall be added to the sums to be recouped by the Consenting Parties one hundred potent (100%) of that portion of the costs of the reworking or plugging back operation which would have been chargeable to such Non-Con enting Party had it participated therein. If 34 such a reworking or plugging back operation is proposed during such recoupment period, the provisions of this Article VI.B. shall be applicable as between said Consenting Parties in said well.

During the period of time Consenting Parties are entitled to receive Non-Consenting Pa ty's share of production, or the proceeds therefrom. Consenting Parties shall be responsible for the payment of all production, severance, excise, gathering and other taxes, and all royalty, overriding royalty and other burdens applicable to Non-Consenting Party's share of production not excepted by Ar-42 tiele III.D.

50

In the case of any reworking, plugging back or deeper drilling operation, the Consenting Parties shall be permitted to use, free 47 of cost, all casing, tubing and other equipment in the well, but the ownership of all such equipment shall renain unchanged; and upon 48 abandonment of a well after such reworking, plugging back or deeper drilling, the Consenting Parties shall a count for all such equipment to the owners thereof, with each party receiving its proportionate part in kind or in value, less cost of salvage.

Within sixty (60) days after the completion of any operation under this Article, the party conducting the operations for the 54 Consenting Parties shall furnish each Non-Consenting Party with an inventory of the equipment in and connected to the well, and an 55 itemized statement of the cost of drilling, deepening, plugging back, testing, completing, and equipping the well for production; or, at its option, the operating party, in lieu of an itemized statement of such costs of operation, may submit a detailed statement of monthly bill-57 ings. Each month thereafter, during the time the Consenting Parties are being reimbursed as provided above, the party conducting the 58 operations for the Consensing Parties shall furnish the Non-Consenting Parties with an itemized statement of all costs and liabilities in-59 curred in the operation of the well, together with a statement of the quantity of oil and gas produced from it and the amount of proceeds realized from the sale of the well's working interest production during the proceeding month. In determining the quantity of oil and gas 64 produced during any month, Consenting Parties shall use industry accepted methods such as, but not limited to, metering or periodic well tests. Any amount realized from the sale or other disposition of equipment newly acquired in connection with any such operation which would have been owned by a Non-Consenting Party had it participated therein shall be credited against the total unreturned costs of the work done and of the equipment purchased in determining when the interest of such Non-Consenting Party shall revert to it as above provided; and if there is a credit balance, it shall be paid to such Non-Consenting Party.

A.A.P.L. FORM 610 - MODEL FORM OPERATING AGREEMENT - 1982

ARTICLE VI

Notwithstanding any language under Article Vi.B. to the contrary, in any well in which a completion attempt may be made at more than one depth, each party who participated in the initial operations hereto shall have the right to make a separate election as to each interval in which a completion is proposed. Should a party hereto elect not to participate in a completion attempt as to any one interval, then those parties who elect to participate in the completion attempt as to that interval, shall, in the proportions they have elected to bear, share all costs, risks and expenses of such completion attempt. Any recoupment of said expenses shall be made solely from the production attributable to that interval.

Gas production attributable to any Non-Consenting Party's relinquished interest upon such Party election shall be sold to its purchaser, if available, under the terms of its existing gas sale contract. Such Non-Consenting Party shall direct its purchaser to remit the proceeds receivable from such sale direct to the Consenting Parties until the mounts provided for in this Article are recovered from the Non-Consenting Parties relinquished interest. If such Non-II Consenting Party has not contracted for sale of its gas at the time such gas is available for delivery, or has not made the election as provided above, the Consenting Parties shall own and be entitled to receive and sell such Non-I2 Consenting Party's share of gas as hereinabove provided during the recoupment period.

Notwithstanding any provisions to the contrary in this or any other agreement, a Non-Consenting Party, upon notice in the writing to Operator, and/or any party carrying all or part of the non-consenting interest shall have the right at all times and front time to time within two (2) years of the data it received notice that payout has occurred, to audit Operator's and/or carrying party's accounts and records relating to or connected with its operations on the Contract Area or on land pooled therewith, regardless of when such operations were conducted.

A.A.P.L. FORM 610 - MODEL FORM OPERATING AGREEME

ARTICLE VI

If and when the Consenting Parties recover from a Non-Consenting Party's relinquished interest the amounts provided for above, 2 the relinquished interests of such Non-Consenting Party shall automatically revert to it, and, from and after such reversion, such Non-3 Consenting Party shall own the same interest in such well, the material and equipment in or pertaining thereto, and the production 4 therefrom as such Non-Consenting Party would have been entitled to had it participated in the drilling, reworking, deepening or plusging back of said well. Thereafter, such Non-Consenting Party shall be charged with and shall pay its proportionate part of the further costs of the operation of said well in accordance with the terms of this agreement and the Accounting Procedure attached hereto.

10

Notwithstanding the provisions of this Article VI.B.2., it is agreed that without the mutual consent of all parties, no wells shall 11 be completed in or produced from a source of supply from which a well located elsewhere on the Contract Area is producing, unless such well conforms to the then-existing well spacing pattern for such source of supply.

13 14 15

16

The provisions of this Article shall have no application whatsoever to the drilling of the initial well described in Article VI.A. 17 except (a) as to Article VII.D.1. (Option No. 2), if selected, or (b) as to the reworking, deepening and plugging back of such initial well 18 after if has been drilled to the depth specified in Article VI.A. if it shall thereafter prove to be a dry hole or, if initially completed for pro-19 duction, ceases to produce in paying quantities.

20 21 22

23

3. Stand-By Time: When a well which has been drilled or deepened has reached its authorized depth and all tests have been 24 completed, and the results thereof furnished to the parties, stand-by costs incurred pending response to a party's notice proposing a 25 reworking, deepening, plugging back or completing operation in such a well shall be charged and borne as part of the drilling or deepen-26 ing operation just completed. Stand-by costs subsequent to all parties responding, or expiration of the response time permitted, whichever 27 first occurs, and prior to agreement as to the participating interests of all Consenting Parties pursuant to the terms of the second gram-28 matical paragraph of Article VI.B.2., shall be charged to and borne as part of the proposed operation, but if the proposal is subsequently withdrawn because of insufficient participation, such stand-by costs shall be allocated between the Consenting Parties in the proportion each Consenting Party's interest as shown on Exhibit "A" bears to the total interest as shown on Exhibit "A" of all Consenting Par-

35

30

4. Sidetracking. Except as hereinafter provided, those provisions of this agreement applicable to a "deepening" operation shall 36 also be applicable to any proposal to directionally control and intentionally deviate a well from vertical so as to change the bottom hole 37 location (herein call "sidetracking"), unless done to straighten the hole or to drill around junk in the hole or because of other 18 mechanical difficulties. Any party having the right to participate in a proposed sidetracking operation that does not own an interest in the affected well bore at the time of the notice shall, upon electing to participate, tender to the well bore owners its proportionate share (equal to its interest in the sidetracking operation) of the value of that portion of the existing well bore to be utilized as follows:

40

(a) If the proposal is for sidetracking an existing dry hole, reimbursement shall be on the basis of the actual costs incurred in the initial drilling of the well down to the depth at which the sidemeking operation is initiated.

46 47 48

45

(b) If the proposal is for sidetracking a well which has previously produced, reimbursement shall be on the basis of the well's on salvable materials and equipment down to the depth at which the sidetracking operation is initiated, determined in accordance with the provisions of Exhibit "C", less the estimated cost of salvaging and the estimated cost of plugging and abandoning.

51

In the event that notice for a sidetracking operation is given while the drilling rig to be utilized is on location, the response period 56 shall be limited to forty-eight (48) hours, exclusive of Saturday, Sunday and legal holidays; provided, however, any party may request and 57 receive up to eight (8) additional days after expiration of the forty-eight (48) hours within which to respond by paying for all stand-by time incurred during such extended response period. If more than one party elects to take such additional time to respond to the notice, stand 59 by costs shall be allocated between the parties taking additional time to respond on a day-to-day basis in the proportion each electing par-60 ty's interest as shown on Exhibit "A" bears to the total interest as shown on Exhibit "A" of all the electing parties. In all other in-61 stances the response period to a proposal for sidemacking shall be limited to thirty (30) days.

C. TAKING PRODUCTION IN KIND:

have the right to

Each party shall I take in kind or separately dispose of its proportionate stare of all oil and gas produced from the Contract Arca. 68 exclusive of production which may be used in development and producing operations and in preparing and treating oil and gas for 69 marketing purposes and production unavoidably lost. Any extra expenditure incurred in the taking in kind or separate disposition by any 70 party of its proportionate share of the production shall be borne by such party. Any party taking its share of production in kind shall be

2

Each party shall execute such division orders and contracts as may be necessary for the sale of its interest in production from the Contract Area, and, except as provided in Article VII.B., shall be entitled to receive payment directly from the purchaser thereof for its share of all production.

In the event any party shall fail to make the prangements necessary to take in kind or separately dispose of its proportionate share of 8 the oil produced from the Contract Area, Operator shall have the right, subject to the revocation at will by the porty owning it, but not the obligation, to purchase such oil or self it to others at any time and from time to time, for the account of the non-taking party at the 10 best noice obtainable in the area for such production. Any such purchase or sale by Operator shall be subject always to the right of the owner of the production to exercise at any time its right to take in kind, or separately dispose of, its share of all oil not previously 12 delivered to a nurchaser. Any nurchase or sale by Operator of any other party's share of oil shall be only for such reasonable periods of 13 time as are consistent with the minimum needs of the industry under the particular circumstances, but in no event for a period in excess 14 of one (1) year.

15 16

In the event one or more parties' separate disposition of its share of the gas causes split-stream deliveries to separate pinclines and/or 17 deliveries which on a day-to-day basis for any reason are not exactly equal to a party's respective proportionate share of total gas sales to 18 be allocated to it, the balancing or accounting between the respective accounts of the parties shall be in accordance with any gas balancing agreement between the parties hereto, whether such an agreement is attached as Exhibit "E", or is a separate agreement.

21 D. Access to Contract Area and Information:

22 23

20

Each party shall have access to the Contract Area at all reasonable times, at its sole cost and risk to inspect or observe operations, 24 and shall have access at reasonable times to information pertaining to the development or operation thereof, including Operator's books 25 and records relating thereto. Operator, upon request, shall furnish each of the other parties with copies of all forms or reports filed with 26 governmental agencies, daily drilling reports, well logs, tank tables, daily gauge and run tickets and reports of stock on hand at the first of each month, and shall make available samples of any cores or cuttings taken from any well drilled on the Contract Area. The cost of 28 gathering and furnishing information to Non-Operator, other than that specified above, shall be charged to the Non-Operator that requests the Information.

35

t. Abandomment of Dry Holes: Except for any well drilled or deepened pursuant to Article VI.B.2., any well which has been drilled or deepened under the terms of this agreement and is proposed to be completed as a dry hole shall not be plugged and abandoned without the consent of all parties. Should Operator, after diligent effort, be unable to contact any party, or should any party fail to reply 36 within forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) after receipt of notice of the proposal to plug and abandon 37 such well, such party shall be deemed to have consented to the proposed abandonment. All such wells shall be plugged and abandoned in 38 accordance with applicable regulations and at the cost, risk and expense of the parties who participated in the cost of drilling or deepening such well. Any party who objects to plugging and abandoning such well shall have the right to take over the well and conduct further 40 operations in search of oil and/or gas subject to the provisions of Article VI.B.

41 42

43

2. Abandonment of Wells that have Produced: Except for any well in which a Non-Consent operation has been conducted bereunder for which the Consenting Parties have not been fully reimbursed as herein provided, any well which has been completed as a 44 producer shall not be plugged and abandoned without the consent of all parties. If all parties consent to such abandonment, the well shall 45 be plugged and abandoned in accordance with applicable regulations and at the cost, risk and expense of all the parties hereto. If, within thirty (30) days after receipt of notice of the proposed abandonment of any well, all parties do not agree to the abandonment of such well, those wishing to continue its operation from the interval(s) of the formation(s) then open to production shall tender to each of the other 48 parties its proportionate state of the value of the well's salvable motorial and equipment, determined in accordance with the provisions of Exhibit "C", less the estimated cost of salvaging and the estimated cost of plugging and abandoning. Each abandoning party shall assign 50 the non-abandoning parties, without warranty, express or implied, as to title or as to quantity, or fitness for use of the equipment and motorial, all of its interest in the well and refated equipment, together with its interest in the leasehold estate as to, but only as to, the in-52 terval or intervals of the formation or formations then open to production. If the interest of the abandoning party is or includes an oil and 53 gas interest, such party shall execute and deliver to the non-abandoning party or partles an oil and gas lease, limited to the interval or in-54 tervals of the formation or formations then open to production, for a term of one (1) year and so long thereafter as oil and/or gas is pro-55 duced from the interval or intervals of the formation or formations covered thereby, such lease to be on the form attached as Exhibit

51

57 ***Notwithstanding any provision to the contrary to this or any other agreement each party shall have the right at all times and from time to time, upon written notice, to audit all of taking party and/or operator's records and accounts 59 related to or in connection with production or allocation of production from the contract area. The payments by, and the 2 assignments or leases to, the assignees shall be in a ratio based upon the relationship of their respective percentage of participation in the Contract Area to the aggregate of the percentages of participation in the Contract Area of all assignees. There shall be no readjustment of interests in the remaining portion of the Contract Area.

Thereafter, abandoning parties shall have no further responsibility, liability, or interest in the operation of or production from 7 the well in the interval or intervals then open other than the royalties retained in any lease made under the terms of this Article. Upon re-8 quest. Operator shall continue to operate the assigned well for the account of the non-abandoning parties at the rates and charges contemplated by this agreement, plus any additional cost and charges which may arise as the result of the separate ownership of the assigned 10 well. Upon proposed abandonment of the producing interval(s) assigned or leased, the assignor or lessor shall then have the option to 11 repurchase its prior interest in the well (using the same valuation formula) and participate in further operations therein subject to the pro-17 visions hereof

13 14

3. Abandonment of Non-Consent Operations: The provisions of Article VI.E.1. or VI.E.2 above shall be applicable as between 15 Consenting Parties in the event of the proposed abandonment of any well excepted from said Articles; provided, however, no well shall be permanently plugged and abandoned unless and until all parties having the right to conduct further operations therein have been notified 17 of the proposed abundonment and afforded the opportunity to elect to take over the well in accordance with the provisions of this Article 18 VI.E.

ARTICLE VII. EXPENDITURES AND LIABILITY OF PARTIES

23 A. Liability of Parties:

The liability of the parties shall be several, not joint or collective. Each party shall be responsible only for its obligations, and 26 shall be liable only for its proportionate share of the costs of developing and operating the Contract Area. Accordingly, the liens granted 27 among the parties in Article VII.B, are given to secure only the debts of each severally. It is not the intention of the parties to create, nor shall this agreement be construed as creating, a mining or other partnership or association, or to render the parties liable as partners.

20

30 B. Liens and Payment Defaults:

31 32

Each Non-Operator grants to Operator a lien upon its oil and gas rights in the Contract Area, and a security interest in its share 33 of oil and/or gas when extracted and its interest in all equipment, to secure payment of its share of expense, together with interest thereon 34 at the rate provided in Exhibit "C". To the extent that Operator has a security interest under the Uniform Commercial Code of the 35 state. Operator shall be entitled to exercise the rights and remedies of a secured party under the Code. The bringing of a suit and the obtaining of judgment by Operator for the secured indebtedness shall not be deemed an election of remedies or otherwise affect the lien 37 rights or security interest as security for the payment thereof. In addition, upon default by any Non-Operator in the payment of its share 38 of expense, Operator shall have the right, without prejudice to other rights or remedies, to collect from the purchaser the proceeds from 39 the sale of such Non-Operator's share of oil and/or gas until the amount owed by such Non-Operator, plus interest, has been paid. Each purchaser shall be entitled to rely upon Operator's written statement concerning the amount of any default. Operator grants a like lien 41 and security interest to the Non-Operators to secure payment of Operator's proportionate share of expense.

42 43

If any party fails or is unable to pay its share of expense within sixty (60) days after rendition of a statement therefor by Operator, the non-defaulting parties, including Operator, shall, upon request by Operator, pay the unpaid amount in the proportion that 45 the interest of each such party bears to the interest of all such parties. Each party so paying its share of the unpaid amount shall, to obtain reimbursement thereof, be subrogated to the security rights described in the foregoing paragraph.

47 49

48 C. Payments and Accounting:

50

Execut as herein otherwise specifically provided, Operator shall promptly pay and discharge expenses incurred in the developmen 51 and operation of the Contract Area pursuant to this agreement and shall charge each of the parties hereto with their respective propor-52 lionate shares upon the expense basis provided in Exhibit "C". Operator shall keep an accurate record of the joint account hereunder. 53 showing expenses incurred and charges and credits made and received.

54 55

Operator, at its election, shall have the right from time to time to demand and receive from the other parties payment in advance 56 of their respective shares of the estimated amount of the expense to be incurred in operations hereunder during the next succeeding 57 month, which right may be exercised only by submission to each such party of an itemized statement of such estimated expense, together 58 with an invoice for its share thereof. Each such statement and invoice for the payment in advance of estimated expense shall be submitted on or before the 20th day of the next preceding month. Each party shall pay to Operator its proportionate share of such estimate within 60 fifteen (15) days after such estimate and invoice is received. If any party falls to pay its share of said estimate within said time, the amount 61 due shall bear interest as provided in Exhibit "C" until paid. Proper adjustment shall be made monthly between advances and actual ex-62 pense to the end that each party shall bear and pay its proportionate share of actual expenses incurred, and no more.

64 D. Limitation of Expenditures:

66 67

1. Drill or Deepen: Without the consent of all parties, no well shall be drilled or deepened, except any well drilled or deepened pursuant to the provisions of Article VI.B.2. of this agreement. Consent to the drilling or deepening shall include:

A.A.P.L. FORM 610 - MODEL FORM OPERATING AGREEMENT - 1982

ARTICLE VII

Ontion No. 1: All necessary expenditures for the drilling or deepening, testing, completing and equipping of the well, including 2 necessary tankage and/or surface facilities. 4 17 Option No. 2: All necessary expenditures for the drilling or deepening and testing of the well. When such well has reached its 5 authorized depth, and all tests have been completed, and the results thereof furnished to the parties, Operator shall give immediate notice 6 to the Non-Operators who have the right to participate in the completion costs. The parties receiving such notice shall have forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) to which to elect to participate in the acting of casing and the completion at-8 tempt. Such election, when made, shall include consent to all necessary expenditures for the completing and equipping of such well, in-9 cluding necessary tankage and/or surface facilities. Failure of any party receiving such notice to reply within the period above fixed shall 10 constitute an election by that party not to participate in the cost of the completion attempt. If one or more, but less than all of the parties, 11 elect to set pipe and to attempt a completion, the provisions of Article VI.B.2. hereof (the phrase "reworking, deepening or plugging 12 back" as contained in Article VI.B.2. shall be deemed to include "completing") shall apply to the operations thereafter conducted by less 13 than all parties. 14 2. Rework or Plug Back: Without the consent of all parties, no well shall be reworked or plugged back except a well reworked or 15 16 plugged back pursuant to the provisions of Article VI.B.2, of this agreement. Consent to the reworking or plugging back of a well shall 17 include all necessary expenditures in conducting such operations and completing and equipping of said well, including necessary tankage 18 and/or surface facilities 19 20 3. Other Operations: Without the consent of all parties, Operator shall not undertake any single project reasonably estimated 21 to require an expenditure in excess of twenty-five thousand Dollars (\$ 25,000.00 22 except in connection with a well, the drilling, reworking, deepening, completing, recompleting, or plugging back of which has been 23 previously authorized by or pursuant to this agreement; provided, however, that, in case of explosion, fire, flood or other sudden 24 emergency, whether of the same or different nature, Operator may take such steps and incur such expenses as in its opinion are required 25 to deal with the emergency to sufeguard life and property but Operator, as promptly as possible, shall report the emergency to the other 26 parties. If Operator prepares an authority for expenditure (AFE) for its own use, Operator shall furnish any Non-Operator so requesting 27 an information copy thereof for any single project costing in excess of ____ fifteen thousand 28 Dollars (\$ 15,000,00) but less than the amount first set forth above in this paragraph. 29 30 E. Rentals, Shut-in Well Payments and Minimum Royalties: 11 32 Rentals, shut-in well payments and minimum royalties which may be required under the terms of any lease shall be paid by the arty or parties who subjected such lease to this agreement at its or their expense. In the event two or more parties own and have con-34 tributed interests in the same lease to this acreement, such parties may designate one of such parties to make said payments for and on 35 behalf of all such parties. Any party may request, and shall be entitled to receive, proper evidence of all such payments. In the event of 36 failure to make proper payment of any rental, shut-in well payment or minimum royalty through mistake or oversight where such pay-37 ment is required to continue the lease in force, any loss which results from such non-payment shall be borne in accordance with the pro-38 visions of Article IV.B.2. 39 Operator shall notify Non-Operator of the anticipated completion of a shut-in gas well, or the shutting in or return to production **4**0 41 of a producing gas well, at least five (5) days (excluding Saturday, Sunday and legal holidays), or at the earliest opportunity permitted by 42 circumstances, prior to taking such action, but assumes no liability for failure to do so. In the event of failure by Operator to so notify 43 Non-Operator, the loss of any lease contributed hereto by Non-Operator for failure to make timely payments of any shut-in well payment 44 shall be borne jointly by the parties hereto under the provisions of Article IV.B.3. 45 46 F. Taxes: 47 Beginning with the first calendar year after the effective date hereof. Operator shall render for ad valorem taxation all property 48 49 subject to this agreement which by law should be rendered for such taxes, and it shall pay all such taxes assessed thereon before they 50 become definquent. Prior to the rendition date, each Non-Operator shall furnish Operator information as to burdens (to include, but not 51 be limited to, royalties, overriding royalties and production payments) on leases and oil and gas interests contributed by such Non-52 Operator. If the assessed valuation of any leasehold estate is reduced by reason of its being subject to outstanding excess royalties, over-53 riding royalties or production payments, the reduction in ad valorem taxes resulting therefrom shall inure to the benefit of the owner or 54 owners of such leasthold estate, and Operator shall adjust the charge to such owner or owners so as to reflect the benefit of such reduc-55 tion. If the ad valorem taxes are based in whole or in part upon separate valuations of each party's working interest, then notwithstanding 56 anything to the contrary herein, charges to the joint account shall be made and paid by the parties hereto in accordance with the tax 57 value generated by each party's working interest. Operator shall bill the other parties for their proportionate shares of all tax payments in 58 the manner provided in Exhibit "C". 59 If Operator considers any tax at sessment improper, Operator may, at its discretion, protest within the time and manner 61 prescribed by law, and prosecute the protest to a final determination, unless all parties agree to abondon the protest prior to final deter-62 minution. During the pendency of administrative or judicial proceedings. Operator may elect to pay, under protest, all such taxes and any 63 interest and penalty. When any such protest of assessment shall have been family determined, Operator shall pay the tax for the joint account, together with any interest and penalty recrued, and the total cost shall then be assessed against the parties, and be paid by them, as 65 provided in Exhibit "C". Each party shall pay or cause to be paid all production, severance, excise, gathering and other taxes imposed upon or with respect 67

68 to the production or handling of such party's share of oil and/or gas produced under the terms of this agreement.

i G. Insurance:

At all times while operations are conducted hereunder, Operator shall comply with the workmen's compensation law of 4 the state where the operations are being conducted; provided, however, that Operator may be a self-insurer for liability under said compensation laws in which event the only charge that shall be made to the joint account shall be as provided in Exhibit "C". Operator shall 6 also carry or provide insurance for the benefit of the joint account of the parties as outlined in Exhibit "D", attached to and made a part 7 hereof. Operator shall require all contractors engaged in work on or for the Contract Area to comply with the workmen's compensation 8 law of the state where the operations are being conducted and to maintain such other insurance as Operator may require.

ARTICLE VIII.

ACQUISITION, MAINTENANCE OR TRANSFER OF INTEREST

16 A. Surrender of Leases:

The leases covered by this agreement, insofar as they embrace acreage in the Contract Arca, shall not be surrendered in whole 19 or in part unless all parties consent thereto.

20

Rſ

However, should any party desire to surrender its interest in any lease or in any portion thereof, and the other parties do not 22 agree or consent thereto, the party desiring to surrender shall assign, without express or implied warranty of title, all of its interest in 23 such lease, or portion thereof, and any well, material and equipment which may be located thereon and any rights in production 24 thereafter secured, to the parties not consenting to such surrender. If the interest of the assigning party is or includes an oil and gas in-25 terest, the assigning party shall execute and deliver to the party or parties not consenting to such surrender an oil and gas lease covering 26 such oil and gas interest for a term of one (1) year and so long thereafter as oil and/or gas is produced from the land covered thereby, such 27 lease to be on the form attached hereto as Exhibit "B". Upon such assignment or lease, the assigning party shall be relieved from all 28 obligations thereafter accruing, but not theretofore accrued, with respect to the interest assigned or leased and the operation of any well 29 attributable thereto, and the assigning party shall have no further interest in the assigned or leased premises and its equipment and pro-30 duction other than the royalties retained in any lease made under the terms of this Article. The party assigned or lesses shall pay to the 31 party assignor or lessor the reasonable salvage value of the latter's interest in any wells and equipment attributable to the assigned or less-32 ed acreage. The value of all material shall be determined in accordance with the provisions of Exhibit "C", tess the estimated cost of 33 salvaging and the estimated cost of plugging and abandoning. If the assignment or lease is in favor of more than one party, the interest 34 shall be shared by such parties in the proportions that the interest of each bears to the total interest of all such parties.

35

Any assignment, lease or surrender made under this provision shall not reduce or change the assignor's, lessor's or surrendering 37 party's interest as it was immediately before the assignment, lease or surrender in the balance of the Contract Area; and the acreage 38 assigned, leased or surrendered, and subsequent operations thereon, shall not thereafter be subject to the terms and provisions of this agreement

GAS BALANCING AGREEMENT

The parties to the Operating Agreement to which this agreement is attached own the working interest in the gas rights underlying the lands covered by such agreement (the "Contract Area") in accordance with the percentages of participation as set forth in Exhibit "A" to the Operating Agreement (the "participation percentage").

In accordance with the terms of the Operating Agreement, each party thereto has the right to take its share of gas produced from the Contract Area and market the same. In the event any of the parties hereto collectively owning participation percentages of less than 50% are not at any time taking or marketing their share of gas or have contracted to sell their share of gas produced from the Contract Area to a purchaser which does not at any time while this agreement is in effect take the full share of gas attributable to the interest of such parties, this agreement shall automatically become effective upon the terms hereinafter set forth.

- 1. During the period or periods when any parties hereto collectively owning participation percentages of less than 50% have no market for their share of gas produced from any proration unit within the Contract Area, or their purchaser does not take its full share of gas producing from such proration unit, other parties collectively owning participation percentages of more than 50% shall be entitled to produce each month 100% of the lesser of (a) allowable gas production assigned to such proration unit by applicable state regulatory authority or (b) the delivery capacity of gas from such proration unit; provided, however, no party who does not have gas in place shall be entitled to take or deliver to a purchaser gas production in excess of 200% of the lesser of (c) its share of the volumes of gas capable of being delivered on a daily basis or (d) its share of allowable gas production. All parties hereto shall share in and own the liquid hydrocarbons recovered from such gas by lease equipment in accordance with their respective interests and subject to the Operating Agreement to which this agreement is attached, but the party or parties taking such gas shall own all of the gas delivered to its or their purchaser.
- 2. On a cumulative basis, each party not taking or marketing its full share of the gas produced shall be credited with gas in place equal to its full share of the gas produced under this Agreement, less its share of gas used in lease operations, vented or lost, and less that portion such party took or delivered to its purchaser. The Operator will maintain a current account of the gas balance between the parties and will furnish all parties hereto monthly statements showing the total quantity of gas produced, the amount used in lease operations, vented or lost, the total quantity of liquid hydrocarbons recovered therefrom, and the monthly and cumulative over and under account of each party.
- 3. Each Party producing, taking or delivering gas to its purchaser shall pay severance taxes, excise taxes, royalties, overriding royalties, production payments and other such payments and taxes on production for which it is obligated by law or by lease or contract (including Operating Agreement), and nothing in this Gas Balancing Agreement shall be construed as affecting such obligations. Each Party hereto agrees to indemnify and hold harmless the other Parties hereto against all claims, losses or liabilities arising out of its failure to fulfill such obligations.
- 4. After notice to the Operator, any party at any time may begin taking or delivering to its purchaser its full share of the gas produced from a proration unit under which it has gas in place less such party's share of gas used in operations, vented or lost. In addition to such share, each party, including the Operator, until it has recovered its gas in place and balanced the gas account as to its interest, shall be entitled to take or deliver to its purchaser a share of gas determined by multiplying 50% of the interest in the current gas production of the party or parties without gas in place by a fraction, the numerator of which is the interest in the proration unit of such party with gas in place and the denominator of which is the total percentage interest in such proration unit of all parties with gas in place currently taking or delivering to a purchaser.
- 5. Nothing herein shall be construed to deny any party the right, from time to time, to produce and take or deliver to its purchaser its full share of the allowable gas production to meet the deliverability tests required by its purchaser, provided that said test should be reasonable in length, normally not to exceed 72 hours.
- 6. If a proration unit ceases to produce gas and/or liquid hydrocarbons in paying quantities before the gas account is balanced, settlement will be made between the underproduced and overproduced parties. In making such settlement, the underproduced party or parties will be paid a sum of money by the overproduced party or parties attributable to the overproduction which said overproduced party received, less applicable taxes theretofore paid, at the applicable price defined below for the delivery of a volume of gas equal to that for which settlement is made. For gas, the price of which is not regulated by federal, state or other governmental agencies, the price basis shall be the price received for

the sale of the gas. For gas, the price of which is subject to regulation by federal, state or other governmental authorities, the price basis shall be the rate collected, from time to time, which is not subject to possible refund, as provided by the Federal Energy Regulatory Commission or any other governmental authority, pursuant to final order or settlement applicable to the gas sold from such well, plus any additional collected amount which is not ultimately required to be refunded by such authority, such additional collected amount to be accounted for at such time as final determination is made with respect hereto.

- 7. Notwithstanding the provisions of ¶6, it is expressly agreed that any underproduced party shall have the optional right, with respect to each proration unit, to receive a cash settlement bringing such underproduced party's gas account into balance at any time and from time to time prior to the final settlement, by first giving each overproduced party 90 days' written notice of demand for cash settlement. If such option is so exercised, settlement shall be made (as of 7:00 o'clock A.M. on the first day of the calendar month following the date of such written demands) within 90 days following the actual receipt of such written demands by the overproduced parties, in the same manner provided for in ¶6. The option provided for in this paragraph may be exercised, from time to time, but only one time in each calendar year.
- 8. Nothing herein shall change or affect each party's obligation to pay its proportionate share of all costs and liabilities incurred, as it share thereof is set forth in the Operating Agreement.
- 9. This agreement shall constitute a separate agreement as to each proration unit approved by the applicable regulatory authority for a pool within the Contract Area, but such proration unit shall not include any producing horizon which is not within the vertical limits of said pool. This agreement shall remain in force and effect so long as the Operating Agreement to which it is attached remains in effect, and shall inure to the benefit of and be binding upon the parties hereto, their heirs, successors, legal representatives and assigns.
