Attention: Mr. G. R. Smith

Re: Injection Pressure Increase
for the East Vacuum Grayburg-
San Andres Unit

Dear Mr. Smith:

Administrative approval has been granted to increase the injection pressure limitation, affected by Order No. R-5897, to 1350 psi. Evidence presented in your January 3, 1983 letter substantiate 1350 psi as a reasonable pressure limit. Wells subject to this new pressure limit should include all injection wells affected by Order No. R-5897.

Sincerely,

JOE D. RAMEY,
Director
