Subject: SRO correction term assignment
Attachments: Nearburg Correction Term Asmt.docx

Randy:

Attached you should find the form of correction assignment we hope you will find acceptable. As we discussed a few weeks ago in our meeting, this correction will be to tie the term of the assignment to the Unit Operating Agreement (which will persist as long as any contributed leases persist), instead of to the Unit Agreement (already voluntarily dissolved). I think everything should be acceptable except there are probably some changes to the well information requirements on "Exhibit A"?

If you would like any changes go right ahead but please track them.

Thanks

Correction Term Assignment of Oil and Gas Lease

By Term Assignment of Oil and Gas Lease dated effective July 1, 2009, recorded in Book 790, Page 530 of the Official Public Records of Eddy County, New Mexico (the "Original Assignment"), Nearburg Exploration Company, assigned to Marbob Energy Corporation an undivided interest in that certain Oil & Gas Lease (the "Lease") covering the W/2 of Section 20, Township 26 South, Range 28 East, N.M.P.M., described in further detail herein below. Following the execution and recording of the Original Assignment **certain errors were identified in the Original Assignment.**

Assignor and Assignee identified herein below, **agree to correct and replace the Original Assignment as follows:**

For consideration paid, the receipt and sufficiency of which are hereby acknowledged, Nearburg Exploration Company, L.L.C. ("Assignor"), whose address is P. O. Box 823085, Dallas, Texas 75382-3085, does hereby grant, bargain, sell, assign and convey to COG Operating LLC, as successor-in-interest to Marbob Energy Corporation ("Assignee"), whose address is 600 West Illinois Ave., Midland, TX 79701, subject to the terms and provisions and the exceptions and reservations hereinafter set forth, the entire interest in and to that certain oil and gas lease (the "Lease") from State of New Mexico, as Lessor, to Nearburg Exploration Company, L.L.C., as Lessee, State of New Mexico Serial No. V0-7450 dated July 1, 2005, covering the following described lands in Eddy County, New Mexico:

Township 26 South, Range 28 East, N.M.P.M.

Section 20: W/2

containing 320.00 acres, more or less

limited to the interval from the surface down to the base of the Bone Spring Formation, as defined in the Unit Operating Agreement hereinafter described;

together with such contractual rights, easements, rights of way and other rights held by Assignor as are necessary or convenient to the development and operation of said lands for the production of oil and gas (the interest and other rights being assigned hereby being collectively referred to herein as the "Subject Interests"). Assignor expressly retains such rights and easements as may be necessary to its own development and operation of the lands and depths covered by said lease that are not conveyed hereby, or which may revert to Assignor as hereinafter provided.

This Assignment is made subject to all royalty, overriding royalty and other burdens affecting the Subject Interests. In addition, Assignor excepts from this Assignment and **reserves to itself an overriding royalty interest equal to the difference between (a) twenty-five percent (25%) of 8/8 of the oil and gas that may be produced, saved and marketed from said lands and (b) the aggregate of all royalty, overriding royalty, production payment and other non-cost-bearing interests now existing as burdens against the interest assigned hereby.** The overriding royalty interest (i) shall be computed and paid at the same time and in the same manner as royalty payable to the lessor under the terms of the applicable oil and gas lease is computed and paid, (ii) shall bear its proportionate share of all taxes and assessments levied upon or against or measured by the production of oil and gas therefrom, and (iii) shall be proportionately reduced if and to the extent that this Assignment conveys to Assignee less than the full and undivided oil and gas working interest leasehold in such lands or any part thereof. The reservation of the overriding royalty interest shall imply no leasehold preservation, drilling or development obligation on the part of Assignee. No change in the ownership of the overriding royalty interest shall be binding on Assignee until Assignee has been furnished either the original, a certified copy, or a legible reproduced copy of the recorded instrument or instruments effecting the change in ownership.

The rights and interests assigned hereby shall be limited to a term commencing on the effective date hereof and extending so long thereafter as the Lease remains subject to the Unit Operating Agreement hereinafter described, according to the terms of the Unit Operating Agreement.

During the drilling of any well located on the Subject Interests or on lands covered by the Unit Operating Agreement, Assignor's authorized representatives shall have access at all times to each well, but such access shall be at Assignor's sole risk and expense. In addition, Assignor shall have access to all cores, cuttings, logs and other information of whatever nature obtained during the drilling of such well. Assignee further agrees to furnish Assignor daily drilling reports and other pertinent well information and data as specified in the "Well Information Requirements" attached hereto and made a part hereof as Exhibit "A", with respect to all wells drilled on the Subject Interests or on lands covered by the Unit Operating Agreement.

The Subject Interests and Assignor's reserved overriding royalty interest shall, during the term of this Assignment and not thereafter, be subject to the terms and provisions of that certain Unit Operating Agreement dated May 8 2009 naming Marbob Energy Corporation as Operator of the prospect area identified as the SRO State Exploratory Unit (the "Unit Operating Agreement") Oil and gas produced from lands embraced by said Unit Operating Agreement shall be allocated to the Subject Interests and to Assignor's overriding royalty interest as provided therein, and oil and gas production and operations on any such lands shall, while the Subject Interests remain subject to the Unit Operating Agreement, be considered as though taking place on the lands described in the lease or leases assigned hereby (except for purposes of the allocation of oil and gas produced therefrom)

Assignor warrants and agrees to defend title to the interests assigned hereby against all persons claiming or to claim the same by, through and under Assignor but not otherwise This assignment shall be binding on the parties hereto and their respective successors and assigns

Executed on the dates of Assignor's and Assignee's respective acknowledgments annexed hereto, but effective as of July 1, 2009
