Just an FYI

The folder I created is located in H /Basin/Nearburg – SRO Info I also created a folder for each well name I figured that would be the easiest way to navigate for information The well names are slightly out of order due to COM being in some of the names

All of the directional info has already been added to the folders thanks to Debbie She is always on top of everything and so very helpful! ☺

Please let me know if you have any questions Thanks!

I would just give them what they are asking for It will take way too much time to round all that information up and time is of the essence as the SLO is pretty mad at us re comm agreements on SRO 43 & 44 I would assume that if they are not asking for the information on all the other wells they have already received it

As they are not asking for information on the other wells I don t want to go jumping through hoops right now They are being a big enough problem for us right now without doing all the extra work Thanks

Aaron

Looking at this spreadsheet, there are several SRO wells that Nearburg did not include on their list. Brent and I spoke and he believes that Nearburg should be entitled to well information for ALL SRO wells past present and going forward. Should I go ahead and add the recent SRO wells to this list and furnish well info for those also? Please advise. Thank you!

Savannah

We need to start rounding up well information for Nearburg for the wells highlighted in yellow on the attached spreadsheet. Also attached herewith is a revised well requirements spreadsheet from Nearburg. If you can round this up and put it in a folder on the H drive that would be great. We are going to put all the information on a thumb drive so we don't have to send multiple emails/attachments. If we can have this rounded up by next Monday at the latest that would be great.

I am headed to Santa Fe this afternoon. Email me if you have any questions or you can call me on my work cell in the morning. I will be working from the office in Santa Fe. Thanks in advance for your help with this.

We enjoyed visiting with you two this morning. Thanks again for coming by our office.

Attached is the spreadsheet we discussed this morning. I have added the 43H & 44H wells pursuant to our discussion. Note that we have well information on wells in red only and that we are not in pay on wells that are highlighted in yellow.

Hope this helps.

Thank you
