Florene Davidson
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Florene:

Enclosed for filing, on behalf of Forty Acres Energy, LLC, are an application for a secondary recovery project, together with a proposed advertisement. Please set this matter for the August 17, 2017 Examiner hearing.

Thank you.

Very truly yours,

James Bruce

Attorney for Forty Acres Energy, LLC

PROPOSED ADVERTISEMENT

Case No. 15783:

Application of Forty Acres Energy, LLC for approval of a secondary recovery project and to qualify the project for the recovered oil tax rate, Lea County, New Mexico. Applicant seeks approval to institute a secondary recovery project in the West Eumont Unit Area by the injection of water into the Yates-Seven Rivers-Queen formation in wells located on 7977.30 acres of federal, state, and fee lands covering all or parts of Sections 21, 22, 26-29, and 32-35 of Township 20 South, Range 36 East, N.M.P.M., and Sections 1-3, 11, and 12 of Township 21 South, Range 35 East, N.M.P.M. Applicant further requests that the secondary recovery project for the West Eumont Unit Area be qualified for the recovered oil tax rate, pursuant to the Enhanced Oil Recovery Act (L. 1992, ch. 38) and Division regulations. The unit area is centered approximately 5 miles northwest of Oil Center, New Mexico.

BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

APPLICATION OF FORTY ACRES ENERGY, LLC
FOR APPROVAL OF A SECONDARY RECOVERY
PROJECT AND TO QUALIFY THE PROJECT FOR
THE RECOVERED OIL TAX RATE, LEA COUNTY,
NEW MEXICO.

Case No. 15293

APPLICATION

Forty Acres Energy, LLC, whose address is Suite 305, 11777B Katy Freeway, Houston, Texas 77079, phone number (832) 706-0057, applies for an order approving a secondary recovery project and qualifying the project for the recovered oil tax rate. In support thereof, applicant states:

1. Applicant is a working interest owner in the proposed West Eumont Unit (the "Unit Area"), which covers the following lands located in Lea County, New Mexico:

Township 20 South, Range 36 East, N.M.P.M.

Section 21:	S/2
Section 22:	NE/4 and S/2
Sections 26-28:	All
Section 29:	NE/4
Section 32:	E/2
Sections 33-35:	All

Township 21 South, Range 35 East, N.M.P.M.

Section 1:	Lots 3-6 and 11-14, and SW/4 (W/2 equivalent)
Section 2:	Lots 1-16 and S/2 (All)
Section 3:	Lots 1-16 and S/2 (All)
Section 11:	N/2
Section 12:	NW/4

Containing 7,977.30 acres of federal, state, and fee lands.

The unitized interval is the Yates – Seven Rivers – Queen formation, as further described in the unitization application filed concurrently with this application.

2. Applicant will be the operator of the Unit Area.

3. Applicant proposes to institute a secondary recovery project in the Unit Area.
4. Applicant proposes to inject water into the Yates – Seven Rivers – Queen

formation, initially from the following wells:

WEU 26OO-W
Section 26-20S-36E
10 feet FSL
2660 feet FEL

WEU 35BB-W
Section 35-20S-36E
1330 feet FNL
2630 feet FEL

WEU 35GG-W
Section 35-20S-36E
2470 feet FSL
2630 feet FEL

WEU 2AA-W
Section 2-21S-35E
1185 feet FNL
1345 feet FEL

WEU 2BB-W
Section 2-21S-35E
1185 feet FNL
2580 feet FEL

WEU 2GG-W
Section 2-21S-35E
2330 FNL
2620 FEL

WEU 2HH-W
Section 2-21S-35E
2485 feet FNL
1335 feet FEL

Additional injection wells will also be drilled on an ongoing basis. All injection wells within the unit area are anticipated to be new drills.

5. Applicant requests that the secondary recovery project for the Unit Area be qualified for the recovered oil tax rate, pursuant to the Enhanced Oil Recovery Act (L. 1992, ch. 38) and Division regulations. Project data includes:

(a)	Number of initial producing wells:	16
(b)	Number of initial injection wells:	7
(c)	Number of injection wells at full development:	157
(d)	Capital cost of initial additional facilities:	\$1,500,000
(e)	Estimated total initial project cost:	\$4,000,000
(f)	Estimated value of incremental production:	\$15,000,000
(g)	Estimated injection commencement date:	January 2018
(h)	Type of injected fluid:	Produced water
(h)	Anticipated injection volumes:	300 BWPD/well

5. The Form C-108 for the project is attached as Exhibit A.

6. Approval of this application will prevent waste and protect correlative rights.

WHEREFORE, applicant requests that, after notice and hearing, the Division enter its order approving the injection application, and qualifying the secondary recovery project as an Enhanced Oil Recovery Project.

Respectfully submitted,

James Bruce
Post Office Box 1056
Santa Fe, New Mexico 87504

Attorney for Forty Acres Energy, LLC

VERIFICATION

STATE OF TEXAS)
 HARRIS) ss
COUNTY OF ~~HOUSTON~~)

Huxley Song being duly sworn upon his oath deposes and states that He is an engineer and the chief executive office for Fortv Acres Energy LLC he is authorized to make this verification on its behalf he has read the foregoing application and knows the contents thereof and the same is true and correct to the best of his knowledge information and belief

Huxley Song

SUBSCRIBED AND SWORN TO before me this 20th day of June 2017 by Huxley Song

My Commission Expires 9-8-2018

Notary Public

APPLICATION FOR AUTHORIZATION TO INJECT

- I PURPOSE Secondary Recovery Pressure Maintenance Disposal Storage
Application qualifies for administrative approval? Yes No
- II OPERATOR Fortv Acres Energy LLC
ADDRESS 11777 Katy Freeway Suite 505 Houston TX 77079
CONTACT PARTY Huxley Song PHONE (832) 706 0057
- III WELL DATA Complete the data required on the reverse side of this form for each well proposed for injection
Additional sheets may be attached if necessary
- IV Is this an expansion of an existing project? Yes X No
If yes give the Division order number authorizing the project
- V Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review
- VI Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type construction date drilled location depth record of completion and a schematic of any plugged well illustrating all plugging detail
- VII Attach data on the proposed operation including
- EXHIBIT **A**
- 1 Proposed average and maximum daily rate and volume of fluids to be injected
 - 2 Whether the system is open or closed
 - 3 Proposed average and maximum injection pressure
 - 4 Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water and
 - 5 If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature studies nearby wells etc)
- *VIII Attach appropriate geologic data on the injection zone including appropriate lithologic detail geologic name thickness and depth. Give the geologic name and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10 000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval
- IX Describe the proposed stimulation program if any
- *X Attach appropriate logging and test data on the well (If well logs have been filed with the Division they need not be resubmitted)
- *XI Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken
- XII Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water
- XIII Applicants must complete the Proof of Notice section on the reverse side of this form
- XIV Certification I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief
- NAME Huxley Song TITLE CEO
SIGNATURE [Signature] DATE 6/19/17
E MAIL ADDRESS
- * If the information required under Sections VI VIII X and XI above has been previously submitted it need not be resubmitted. Please show the date and circumstances of the earlier submission

III. WELL DATA

A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:

- (1) Lease name; Well No.; Location by Section, Township and Range; and footage location within the section.
- (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
- (3) A description of the tubing to be used including its size, lining material, and setting depth.
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District Offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
- (5) Give the depth to and the name of the next higher and next lower oil or gas zone in the area of the well, if any.

XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) The intended purpose of the injection well; with the exact location of single wells or the Section, Township, and Range location of multiple wells;
- (3) The formation name and depth with expected maximum injection rates and pressures; and,
- (4) A notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505, within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

V. Exhibit A shows 39 unique wells or 47 total completions (including recompletes) within a ½ mile radius of the proposed new drill injector locations and 300 unique wells or 608 total completions (including recompletes) within a 2 mile radius, and all associated leases.

VI. Following Exhibit A, the tabulation of the wells with each well's type, construction, date drilled, location, depth, and completion date of wells within a ½ mile radius are displayed in Exhibit B. The plugged well wellbore diagrams are displayed in Exhibit C.

VII. Proposed Injection Operation

1. Average injection rate target will be ~350 bpd. Maximum injection rate will be 1,000 bpd. These numbers are based off of typical injection rates in nearby Yates-Seven Rivers-Queen waterfloods.
2. The system will be a closed system. The injection well will not be made available for commercial disposal purposes.
3. Average injection pressure will be ~600 psi. Maximum injection pressure will be calculated relative to the depth of the highest perforation, using a factor of 0.2 psi/ft. The proposed injector will have perforation depths of approximately 3,800' (or 760 psi maximum injection pressure). Pending results of a step rate test, the maximum injection pressure could potentially be increased to a factor of 0.6 psi/ft (or 2,280 psi at 3,800').
4. The water source will be produced water from a combination of the Rice SWD system and several potential unit wells if additional supply is needed. The source water will be predominately Grayburg and San Andres formation water which will be treated with 35-50 ppm scale inhibitor.
5. Injection will be into the Yates-Seven Rivers-Queen formation, which is immediately productive in the area.

VIII. The proposed waterflood will be injecting into the Yates-Seven Rivers-Queen reservoir. The portion that will be injected consists mainly of sandstones interbedded with dolomites and anhydrites. The reservoir quality rocks have porosities ranging from 10% to 20% and averages around 16%. Formation Tops in the GM State pilot area are:

Formation	Offset Top (GM State 2)	Contents
Alluvium	GL	Fresh Water
Rustler	1611	Anhydrite
Salado (top of salt)	1808	Salt
Tansil (base of salt)	3098	Gas, Oil, & Water
Yates	3288	Gas, Oil, & Water
Seven Rivers	3689	Gas, Oil, & Water
Y-SR-Q Injection Interval	3300-4100	Gas, Oil, & Water
Queen	4100	Gas, Oil, & Water
Grayburg	4317	Gas, Oil, & Water

IX. The new drill injector will be acidized with 3,000 gal 15% HCl for each set of perforations. Acid in the Yates-Seven Rivers-Queen formation is known to break down the perms and cause injection at lower pressures vs perforating alone. The new drill injectors will not be sand frac'd so there will be better vertical conformance.

XI. According to records from the Office of the State Engineer (Exhibit D-1 through D-4) there are 4 water wells within the 2 mile radius around the proposed location WEU 2AA-W, 4 within 2 mile radius of location WEU 2BB-W, 3 within a 2 mile radius of location WEU 2GG-W, and 3 within a 2 mile radius of location WEU 2HH-W. There are no water wells within the ½ mile radius. The closest water well to locations WEU 2AA-W, WEU 2BB-W, WEU 2GG-W, the L-02540, is 0.8, 0.8, and 1 miles away respectively. The L-02540 is 247' (md) deep, was plugged in 1954, and was considered a "shallow" water supply. Well record indicates it may have been a dry hole. The closest water well to WEU 2HH-W, the CP-00602, is 0.9 miles away, 300' (md) deep, and considered a "shallow" water supply. So, no existing underground drinking water sources are above or below the Yates-Seven Rivers-Queen reservoir within a half mile radius. In the Fopeano area (Exhibits D-5 through D-7), there are 3 combined water wells within the 2 mile radius around the proposed locations, but there are none within the ½ mile radius. The closest water well, the CP-00602, is 1.33 miles away, 300' (md) deep, and considered a "shallow" water supply. So, no existing underground drinking water sources are above or below the Yates-Seven Rivers-Queen reservoir within a mile radius.

WELL DATA

- A. The tabular location data for the proposed new drill injectors is provided in Exhibit B. The proposed wellbore diagrams with downhole configurations is provided in Exhibit E.
- B. The injectors will all be brand new drills and cased and perforated in the injection intervals. The injection intervals, depending on the area, will be as in the table ins section VIII above.

Well L-02540, is 0.8 miles away, 24' (md) deep, was plugged in 1954, and was considered a "shallow" water supply. Well record indicates it may have been a dry hole. So, no existing underground drinking water sources are above or below the Bates-Seven Rivers-Queen reservoir within a half mile radius.

Exhibit D-1. Water wells within 2 mile radius of location
