STATEMENT OF THE CASE

WPX seeks to amend Order R-14100 to (1) expand the geographic area of the West Escavada Unit by 960 acres of land, and (2) expand the corresponding West Escavada Unit; Mancos Pool created by that Order to allow horizontal wells to be located anywhere within the Unit so long as the completed interval is no closer than 330 feet from the outer boundary of the expanded West Escavada Unit area. The proposed Unit Area for the expanded West Escavada Unit now consists of approximately 2,886.42 acres comprised of the following Federal and Indian Allotted lands in San Juan County and Sandoval Counties, New Mexico (*denotes the added sections):

TOWNSHIP 22 NORTH, RANGE 7 WEST, SANDOVAL COUNTY

Section 7: S/2
Section 8: S/2
Section 17: All
Section 18: All

TOWNSHIP 22 NORTH, RANGE 8 WEST, SAN JUAN COUNTY

Section 12: S/2*
Section 13: All*

The additional acreage WPX seeks to add to the unitized area is currently within a wildcat pool To remain consistent with the existing unitized area, and to allow for the most efficient horizontal well development pattern, WPX requests that the Division expand the West Escavada Unit; Mancos Pool to include the additional unitized acreage and thereby allow horizontal wells to be located anywhere within the expanded Unit Area so long as the completed interval remains at least 330 feet from the outer boundary of the West Escavada Unit.
