**Section 28; All, containing 640 acres, more or less**

**Section 29; All, containing 640 acres, more or less**

Julie,

Pursuant to your request we have conducted research on the above referenced lands. Please find accompanying this cover letter; a written report with our findings on the requested lands. A description of our methodology used to obtain the information can be found below.

The written report provides a list of all the mineral owners, surface owners, grazing lessees, State leases, leasehold owners and operators of record within the one-mile radius of the AGI Well. Full names and legal mailing addresses have been provided for any person or entity found to have an interest within the 1-mile radius.

The following methodology was performed to obtain the information:

1. Initial research was conducted online via the New Mexico State Land Office website to examine the Data Portal to identify the surface and mineral estates as federal, state or fee lands.
2. Once State lands were identified, J Bar Cane, Inc. contracted Schutz Abstract Company out of Santa Fe, N.M. to build reports on all state mineral ownership as to all depths.
3. Run sheets covering all tracts were built with the records of Caprock Title Company of Midland for the fee lands and supplementation of the state abstracts.
4. Title examination and research was performed on the referenced lands in the public records of Lea County, New Mexico.
5. The title information provided by Schutz Abstract Company was then tracked against the records of Lea County to provide instruments not filed with the Schutz Abstract Company of Santa Fe, NM.
6. Surface ownership and grazing leases for the state lands were reported on from the records provided in the "Data Portal" section of the GLO website.
7. Surface ownership for the fee lands were reported on from the Lea County Assessor's Office in Lovington, NM.
8. Well information was compiled through examination of the New Mexico Oil Conservation Division website, then tracked against the Lea County records and DrillingInfo to verify accuracy.
9. Any addresses not found in the public records or provided by any governmental agency were found via internet research.
10. All information contained in the State Abstracts provided by Schutz Abstract Company any is current up to May 31, 2017.
11. All information found in the Lea County Public Records is current up to June 9, 2017.

Should you have any questions or concerns, please do not hesitate to contact me.

Sincerely,  
J Bar Cane, Inc.
