Subject: Case No. 15791: Application of Rockcliff Operating for an SWD (South Culebra Unit Well No. 1)

Gentlemen: On August 17, 2017, the Division held a hearing in this matter. The record reflects the matter was set for hearing by the Division because "there is Atoka production within two to three miles of this proposal." Hearing Tr. at 20. Mewbourne is an operator of Atoka wells within this area and upon learning of this application after the August 17th hearing has been in discussions with Rockcliff regarding some concerns with the proposed injection operations. Both Mr. Bruce (who represented Rockcliff at the August 17th hearing) and myself (who was recently contacted by Mewbourne about their concerns) have been contacted by our clients and informed Rockcliff and Mewbourne are working on agreed "stipulations" to be included in any proposed order to address Mewbourne's concerns. We therefore request the Division withhold issuing an order in Case No. 15791 until these stipulations can be presented to the Division in a joint letter. Neither Jim nor I believe an additional hearing is necessary at this time.

Thank you for your attention to this matter.
