Mr. Barton:

You can file a protest immediately by forwarding an e-mail with the following information:

1. The application being protested: Well name, well location (API number if applicable), and injection interval, and
2. Identification of the party protesting along with contact information.

You may also include the date you received the application and the reason for the protest (correlative rights, impact to hydrocarbon potential, etc.) but it is not mandatory. You and the applicant will receive an e-mail confirmation regarding the protest and the options for resolution. So, the sooner the better. PRG

Subject: File a protest

Phillip,

Good morning, I'm following up my voicemail this morning.

I need to file a protest on a SWD well applications before the (fast approaching) deadline. Can you let me know what procedures to follow to get those in?

I'll be checking email and phone so either is great.

Thanks,

Bart Barton
