STATEMENT OF THE CASE

Hilcorp is the operator of a non-standard 314.93-acre, more or less, spacing and proration unit, comprised of Lots 8 and 9 and the S/2 NE/4 and SE/4 of Section 6, Township 29 North, Range 7 West, NMPM, Rio Arriba County, New Mexico, which is currently dedicated to the San Juan 29-7 Unit No. 584 Well (API No. 30-039-25654) and the San Juan 29-7 Unit No. 170 Well (API No. 30-039-26745) and producing from the South Blanco-Pictured Cliffs and Basin-Fruitland Coal Pools.

The South Blanco-Pictured Cliffs Pool is governed by Special Rules and Regulations, which provide for 160-acre spacing and proration units. *See* Order No. R-8170, as amended by Order No. R-10987, effective April 9, 1998. However, this spacing and proration unit is also subject to the Unit Agreement San Juan 29-7 Federal Exploratory Unit, which allows for the creation of 320-acre drilling blocks for the Pictured Cliffs formation. As a result, this spacing and proration unit is 154.93 acres for density purposes for the South Blanco-Pictured Cliffs Pool and 314.93 acres for revenue purposes for the Pictured Cliffs, pursuant to the Unit Agreement, which was approved by the Division in Order R-421.

Hilcorp is also the operator of the **San Juan 29-7 Unit 46B Well** (API No. 30-039-26142), located in Lot 8, Section 6, Township 29 North, Range 7 West, NMPM, and is currently producing from the Blanco-Mesaverde Pool.

Hilcorp now proposes to recomplete the **San Juan 29-7 Unit 46B Well** in the South Blanco-Pictured Cliffs Pool and dedicate this well to the 314.93-acre spacing and proration unit currently dedicated to the San Juan 29-7 Unit No. 584 Well (API No. 30-039-25654) and the San Juan 29-7 Unit No. 170 Well. Hilcorp, therefore, requests that the Division enter an order granting an exception to the well density requirements of the South Blanco-Pictured Cliffs Pool.

APPLICANT'S PROPOSED EVIDENCE

WITNESS Name and Expertise	ESTIMATED TIME	EXHIBITS
Wyn McCubbin, Landman	Approx. 20	Approx. 5
Eddie Pippin, Geology	Approx. 20	Approx. 8
James Osborn, Reservoir Engineer	Approx. 20	Approx. 8

PROCEDURAL MATTERS

Hilcorp respectfully requests that Case Nos. 16222 through 16227 be consolidated for purposes of presenting testimony at hearing.

Respectfully submitted,

HOLLAND & HART LLP
