Attention: David Sweeney

*RE: Injection Pressure Increase
Hanlad "A" State Well No. 1
Chaves County, New Mexico*

Dear Mr. Sweeney:

Reference is made to your request dated November 20, 1990, to increase the surface injection pressure on the Hanlad "A" State Well No. 1. This request is based on a step rate test conducted on the well on November 15, 1990. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

WELL AND LOCATION

MAXIMUM INJECTION
SURFACE PRESSURE

Hanlad "A" State Well No. 1
Unit I, Section 28, T-10 South,
R-27 East, NMPM, Chaves County,
New Mexico.

1530 PSIG

*Injection Pressure Increase
Hanson Operating Company, Inc.
December 12, 1990
Page 2*

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

A handwritten signature in cursive script, appearing to read 'William J. LeMay', written in black ink.

William J. LeMay
Director
