Re: Well Proposal
McCroden C #1
W² Section 2-T25N-R3W
Rio Arriba County, New Mexico

Dear Ms. Gallegos:

Energen Resources Corporation (Energen) is making plans to re-enter its McCroden C #1 to permanently abandon the Gallup/Dakota formation and recomplete it in the Mesaverde formation.

The well is presently dedicated to the West Lindrith Gallup/Dakota Pool with an 80 acre spacing unit consisting of the N²SW⁴ of Section 2-T25N-R3W. The proposed recompletion will be in the Blanco Mesaverde Pool requiring a half section spacing unit.

Energen is proposing Lots 3 (58.30 acres), 4 (58.45 acres), S²NW⁴, SW⁴ (W²) of Section 2-T25N-R3W be dedicated as the spacing unit for the recompleted well. Our records indicate you own 0.560617% working interest in the proposed spacing unit by virtue of your unleased mineral interest in the S²SW⁴ of said Section 2.

We invite you to participate with Energen in abandoning the Gallup/Dakota and recompleting said well in the Mesaverde formation and request you execute and return one copy of the signature page to the enclosed Operating Agreement and two signature pages to the enclosed Communitization Agreement along with the AFE totaling \$189,980.00 re-complete and equip the captioned well for production.

Alternatively if you would be interested in leasing your interest Energen offers the following terms:

- a) \$50.00 per net acre bonus
- b) Paid up lease form
- c) One-eighth (1/8) royalty
- d) Two (2) year term

If you do not wish to join or lease Energen will proceed with filing for compulsory pooling in accordance with the rules and regulations of the New Mexico Oil Conservation Division.

If you have any questions relating to the above matters please feel free to contact me.

Sincerely,

David Poage
