Case No. 13731

**AMENDED APPLICATION**

Mewbourne Oil Company applies for an order pooling all mineral interests from the surface to the base of the Morrow formation the W $\frac{1}{2}$  of Section 10, Township 20 South, Range 25 East, N.M.P.M., Eddy County, New Mexico, and in support thereof, states:

1. Applicant is an interest owner in the W $\frac{1}{2}$  of Section 10, and has the right to drill a well thereon.
2. Applicant proposes to drill its Long Draw "10" Fee Com. Well No. 1, at an orthodox location in the NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 10, to a depth sufficient to test the Morrow formation, and seeks to dedicate the W $\frac{1}{2}$  of Section 10 to the well to form a standard 320 acre gas and spacing and proration unit for all pools or formations developed on 320-acre spacing within that vertical extent, including the East Dagger Draw-Strawn Gas Pool and Cemetery-Morrow Gas Pool.
3. Applicant has in good faith sought to obtain the voluntary joinder of all other mineral interest owners in the W $\frac{1}{2}$  of Section 10 for the purposes set forth herein.
4. Although applicant attempted to obtain voluntary agreements from all mineral interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their interests. Therefore, applicant seeks an order pooling all mineral interest owners in the W $\frac{1}{2}$  of Section 10, pursuant to NMSA 1978 §70-2-17.

5. The pooling of all mineral interests underlying the W½ of Section 10 will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

**WHEREFORE**, applicant requests that, after notice and hearing, the Division enter its order:

- A. Pooling all mineral interests in the W½ of Section 10, from the surface to the base of the Morrow formation;
- B. Designating applicant as operator of the well;
- C. Considering the cost of drilling and completing the well, and allocating the cost among the well's working interest owners;
- D. Approving actual operating charges and costs charged for supervision, together with a provision adjusting the rates pursuant to the COPAS accounting procedure; and
- E. Setting a 200% charge for the risk involved in drilling and completing the well in the event a working interest owner elects not to participate in the well.

**APPLICANT REQUESTS THAT, IN THE ABSENCE OF OBJECTION, THIS MATTER BE TAKEN UNDER ADVSISEMENT.**

Respectfully submitted,

---
