I received your letter dated July 12, 2006 setting straight the various errors that lead to this application being set to hearing (Division Case No. 13754). I apologize for not catching this beforehand.

Attached is a finalized draft administrative order (NSL-5428) approving CDX Rio's proposed Jicarilla "A" Well No. 4-M proposed unorthodox Basin-Dakota/Blanco-Mesaverde gas well location in the W/2 of sec. 19-T26N-R5W, NMPM, Rio Arriba County, NM.

Case No. 13754, which is docketed for the August 3, 2006 Examiner's Hearing, will therefore be dismissed.

CDX proposes to drill its Jicarilla "A" Well No. 4-M at an unorthodox gas well location in both the Blanco-Mesaverde (**72319**) and Basin-Dakota (**71599**) Pools 1780 feet from the South line and 580 feet from the West line (Lot 3/Unit L) of Section 19, Township 26 North, Range 5 West, NMPM, Rio Arriba County, New Mexico.

Gas production from the deeper Basin-Dakota Pool is to be included within an existing standard 319.16-acre stand-up gas spacing and proration unit ("GPU") comprising Lots 1 through 4 and the E/2 W/2 (W/2 equivalent) of Section 19, which production is currently simultaneously dedicated to CDX's: (i) Jicarilla "A" Well No. 4 (**API No. 30-039-08062**), located at a standard Dakota gas well location 1850 feet from the South and West lines (Unit K) of Section 19; and (ii) Jicarilla "A" Well No. 4-E (**API No. 30-039-22292**), located at a standard Dakota infill gas well location 950 feet from the North line and 1075 feet from the West line (Lot 1/Unit D) of Section 19.

The proposed Jicarilla "A" Well No. 4-M will be the initial Mesaverde gas well within this same 319.16-acre stand-up GPU.
