*Case 13750*

2006 JUN 20 AM 10 55

**Re: Application of BP America Production Company for approval of a  
waterflood project, Eddy County, New Mexico.**

Dear Mr. Fesmire:

Enclosed is a legal advertisement for the above-referenced case that BP America Production requests be included on the July 20, 2006 Examiner Hearing Docket. The application in this case (Division Form C-108) was filed on June 2, 2006. Since that time BP has determined that it can more effectively flood this lease by replacing three of the injection wells (#6, #8 and #27) with the Washington "33" State Well Nos. 4, 10 and 18. Injection well data sheets have been prepared for each of the proposed new injection wells and will be filed with the Division by separate letter.

This revision to the original exhibit will not change the Area of Review for this lease waterflood project, however, notice of this change in proposed injection wells will be provided to all affected interest owners as required by Form C-108.

Very truly yours,

William F. Carr

Enc.

CASE 13750:

**Application of BP America Production Company for approval of a waterflood project, Eddy County, New Mexico.** Applicant in the above-styled cause, seeks approval of its Washington "33" State Lease Waterflood Project by injection of water into the Queen-Grayburg, San Andres formations through the following seven injection wells located in Section 33, Township 17 South, Range 28 East, NMPM:

Washington "33" State Well No. 2, 990' FNL & 930' FEL  
Washington "33" State Well No. 4, 990' FNL & 2270' FEL  
Washington "33" State Well No. 10, 2267' FNL & 1650' FWL  
Washington "33" State Well No. 14, 2282' FNL & 970' FEL  
Washington "33" State Well No. 16, 1500' FSL & 700' FEL  
Washington "33" State Well No. 18 1550' FSL & 2511' FEL  
Washington "33" State Well No. 23, 975' FSL & 1060' FWL

The applicant requests that the Division establish procedures for the administrative approval of additional injection wells within the project area without the necessity of further hearings and the adoption of any provisions necessary for such other matters as may be appropriate for said waterflood operations. Said area is located approximately 2 miles southwest of Mossman, New Mexico.
