Re: Respondent's Motion for Continuance in Cases 13858 and 13859

Dear Mr. Jones,

The Oil Conservation Division (OCD) does not oppose the motion of Pronghorn Management Corporation (Pronghorn) for a continuance in Cases 13858 and 13859.

The cases are currently scheduled for February 1, 2007. Pronghorn has requested a continuance until February 15, 2007. The OCD asks that if a continuance is granted, that it be granted until the March 1, 2007 docket, so that the case will be heard after the most active period of the legislative session. Undersigned counsel has additional duties during the session that will affect preparation of enforcement cases.

Very truly yours,

Gail MacQuesten

Assistant General Counsel
