**Subject:** Support for 19.15.17 NMAC

Mr. Fesmire,

My wife and I manage a technical editing and writing consulting business from our home office in Cerrillos, within Santa Fe County.

We are writing to solicit your attention relative to a very serious matter.

We are asking for your strong support of repealing Rule 50 [9.15.17.2.50 NMAC] and replacing it with a proposed new rule to be codified as [19.15.17 NMAC].

We understand the benefits that the petroleum industry has historically provided and obviously we all take advantage of these benefits daily.

However, it is heartbreaking to think we might be required to forgo our water supply, clean environment, and quiet atmosphere when, with the careful implementation of protective regulations, these concerns can be circumvented. One of the proposed test wells is only 1.7 miles from our back door.

Your support and action regarding this matter will be greatly appreciated,

Robert & Grace Hollen
