Sir:
I have read an article in the paper regarding new "Pit" rules - for our Oil Industry in New Mexico - I am asking you to stop these rulings - The oil industry is vital to our state knowing that a great part of the economy is based on oil and gas production -
I was a part of that great producer in the 50's - 80's - I am proud of having been a part of the oil and gas industry - Most companies do their best to operate within the limits of law - My company did and still does!
Life and work is costly - Please do not add more silly rules to our drilling and production -

Yours truly,
Capitala (Shell) Anderson
