These agreements communitized particular acres of Federal lands within the Northeast Blanco Unit (NEBU) as to natural gas and associated liquid hydrocarbons producible from the Dakota formation. The term of the agreements was for 2 years and for so long thereafter as communitized substances are produced in paying quantities.

Our records indicate that the wells dedicated to the described agreements were completed and that the public interest requirement for the communitization agreements, pursuant to 43 CFR 3105.2-3, have been met.

The termination effective date of these CA's are the effective date of the Participating Area expansion indicated next to each CA. All subject Federal leases involved with these CA's are held by the Unit. All indicated wells will report to 892000929C (Dakota participating area for Northeast Blanco Unit) from effective termination date of the CAs.

If you have any questions, please contact me at the above address or telephone (505) 599-8918.

Sincerely,
/s/ Margie Dupre
