Case 14070

2007 DEC 21 PM 3 05
RECEIVED

Re: Application of Marbob Energy Corporation for compulsory pooling, Eddy County, New Mexico.

Dear Mr. Fesmire:

Enclosed is the application of Marbob Energy Corporation in the above-referenced case as well as a copy of a legal advertisement. Marbob requests that this matter be placed on the docket for the January 24, 2008 Examiner hearings.

Sincerely yours,

Ocean Munds-Dry

**IN THE MATTER OF THE APPLICATION
OF MARBOB ENERGY CORPORATION
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO**

CASE NO.: 14070

APPLICATION

MARBOB ENERGY CORPORATION, ("Marbob") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17 (2007), for an order pooling all mineral interests from 3605 feet to the top of the Abo formation in the following described spacing and proration units located in the SE/4 NE/4 of Section 25, Township 17 South, Range 28 East, N.M.P.M., Eddy County, New Mexico: the SE/4 NE/4 for all formations and/or pools developed on 40-acre spacing within this vertical extent including the Artesia-Glorieta-Yeso Pool and the Artesia-Queen-Grayburg-San Andres Pool and in support of its application states:

1. Marbob Energy Corporation is a working interest owner in said Section 25 and has the right to drill thereon.
2. Marbob proposes to dedicate the above-referenced spacing or proration unit to its N B Tween State Well No. 1 to be drilled from a location 2310 feet from the North line and 990 feet from the East line of Section 25, Township 17 South, Range 28 East, NMPM, Eddy County, New Mexico to test any and all formations from the surface to the top of the Abo formation.
3. Marbob has sought and been unable to gain the voluntary participation of certain interest owners in the subject spacing unit who is identified on Exhibit A to this application.

4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

5. In order to permit Marbob to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Marbob Energy Corporation should be designated the operator of the well to be drilled.

WHEREFORE, Marbob Energy Corporation requests that this application be set for hearing before an Examiner of the Oil Conservation Division on January 24, 2008 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Marbob Energy Corporation operator of these units and the well to be drilled thereon,
- C. authorizing Marbob Energy Corporation to recover its costs of drilling, equipping and completing the well,
- D. approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a penalty for the risk assumed by Marbob Energy Corporation in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

CASE 14070: **Application of Marbob Energy Corporation for compulsory pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all mineral interests from 3605 feet to the top of the Abo formation in the following described spacing and proration units located in the SE/4 NE/4 of Section 25, Township 17 South, Range 28 East, N.M.P.M., Eddy County, New Mexico: the SE/4 NE/4 for all formations and/or pools developed on 40-acre spacing within this vertical extent including the Artesia-Glorieta-Yeso Pool and the Artesia-Queen-Grayburg-San Andres Pool. Said unit is to be dedicated to its N B Tween State Well No. 1 to be drilled at a location 2310 feet from the North line and 990 feet from the East line of Section 25, Township 17 South, Range 28 East, NMPM, Eddy County, New Mexico to test any and all formations from the surface to the top of the Abo formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Marbob Energy Corporation as operator of the well and a charge for risk involved in drilling said well. Said area is located 9 miles west of Loco Hills, New Mexico.
