Re: Application of Yates Petroleum Corporation for compulsory pooling, Chaves County, New Mexico.

Dear Mr. Fesmire:

Enclosed is the application of Yates Petroleum Corporation in the above-referenced case as well as a copy of a legal advertisement. Yates requests that this matter be placed on the docket for the January 10, 2008 Examiner hearings.

Sincerely yours,

Ocean Munds-Dry

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES OIL CONSERVATION DIVISION

IN THE MATTER OF THE APPLICATION OF YATES PETROLEUM CORPORATION FOR COMPULSORY POOLING, CHAVES COUNTY, NEW MEXICO

CASE NO.: 14068

APPLICATION

YATES PETROLEUM CORPORATION, ("Yates") through its undersigned attorneys, hereby makes application to the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17 (2007), for an order pooling all mineral interests from the surface to the base of the Mississippian formation in the following described spacing and proration units located in the S/2 of Section 2, Township 12 South, Range 31 East, N.M.P.M., Chaves County, New Mexico: the S/2 for all formations and/or pools developed on 320-acre spacing within this vertical extent including the West Caprock-Atoka Gas Pool; the SW/4 for all formations and/or pools developed on 160-acre spacing within this vertical extent; and the SE/4 SW/4 for all formations and/or pools developed on 40-acre spacing within this vertical extent including the Northwest Caprock-Wolfcamp pool and in support of its application states:

- 1. Yates Petroleum Corporation is a working interest owner in said Section 2 and has the right to drill thereon.
- 2. Yates proposes to dedicate the above-referenced spacing or proration unit to its Patsy State Unit Well No. 6 to be drilled from a location 990 feet from the South line and 1650 feet from the West line of Section 2, Township 12 South, Range 31 East, NMPM, Chaves

County, New Mexico to an approximate depth of 11,300 feet to test any and all formations from the surface to the base of the Mississippian formation.

- 3. Yates has sought and been unable to gain the voluntary participation of certain interest owners in the subject spacing unit who is identified on Exhibit A to this application.
- 4. Said pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
- 5. In order to permit the Yates to obtain its just and fair share of the oil and gas underlying the subject lands, all mineral interests should be pooled, and Yates Petroleum Corporation should be designated the operator of the well to be drilled.

WHEREFORE, Yates Petroleum Corporation requests that this application be set for hearing before an Examiner of the Oil Conservation Division on January 10, 2008 and, after notice and hearing as required by law, the Division enter its order:

- A. pooling all mineral interests in the subject spacing and proration units,
- B. designating Yates Petroleum Corporation operator of these units and the well to be drilled thereon,
- C. authorizing Yates Petroleum Corporation to recover its costs of drilling, equipping and completing the well,
- approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures, and
- E. imposing a penalty for the risk assumed by Yates Petroleum Corporation in drilling and completing the well against any working interest owner who does not

voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

EXHIBIT A

APPLICATION OF YATES PETROLEUM CORPORATION. FOR COMPULSORY POOLING S/2 OF SECTION 2, TOWNSHIP 12 SOUTH, RANGE 31 EAST, N.M.P.M. CHAVES COUNTY, NEW MEXICO.

Occidental Permian, Ltd. c/o OXY USA WTP Limited Partnership 6 Desta Drive, Suite 600 Midland, TX 79705 CASE <u>1406</u>[: Application of Yates Petroleum Corporation for compulsory pooling, Chaves County, New Mexico. Applicant in the above-styled cause seeks an order pooling all mineral interests from the surface to the base of the Mississippian formation in the following described spacing and proration units located in the S/2 of Section 2, Township 12 South, Range 31 East, N.M.P.M., Chaves County, New Mexico: the S/2 for all formations and/or pools developed on 320-acre spacing within this vertical extent including the West Caprock-Atoka Gas Pool; the SW/4 for all formations and/or pools developed on 160-acre spacing within this vertical extent; and the SE/4 SW/4 for all formations and/or pools developed on 40-acre spacing within this vertical extent including the Northwest Caprock-Wolfcamp Pool. Said unit is to be dedicated to its Patsy State Unit Well No. 6 to be drilled at a location 990 feet from the South and 1650 feet from the West line of Section 2, Township 12 South, Range 31 East, NMPM, Chaves County, New Mexico to an approximate depth of 11,300 feet to test any and all formations from the surface to the base of the Mississippian formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of Yates Petroleum Corporation as operator of the well and a charge for risk involved in drilling said well. Said area is located 7 miles southwest of Caprock, New Mexico.
