

Request 5 wells in the Gerk spacing unit

4 wells allowed per 320 acre spacing unit effective
80-acre spacing in the Basin Dakota Pools.

- Gerk Unit is 407.56 acres

Therefore, to achieve 80 acre spacing per well, we
request a 5th well in this 400 acre spacing units
to properly drain the unit and avoid drainage by
offset operators.

Permission for the 5th well in the Blanco
Mesaverde Pool was received for this well in
2007.
