Hello Jim:

For purpose of notice for the NSL - this horizontal Wolfcamp well's BHL encroaches on the Wolfcamp oil spacing unit consisting of the W/2 SW/4 of Section 6 which is also operated by Cimarex.

This area is all covered by one undivided Fee lease, but is Working Interest ownership the same between the W/2 NW/4 and the W/2 SW/4 (between the two units)?

If not, probably all working interest owners within the W/2 SW/4 unit would need to be formally noticed to justify the NSL permit?

I see that the newspaper notice does cover the NSL application along with NSP and CP.

Anyway, being picky, but wanted to run this by you.
