**NOTICE OF THE HEARING OF THE FOLLOWING  
NEW MEXICO OIL CONSERVATION DIVISION CASE:**

**TO: Allison Unit's Interest Owners**

**Re: Application of Burlington Resources Oil & Gas Company LP for a downhole  
commingling reference case for its Allison Unit pursuant to Division Rule 303.E Rio  
Arriba County, New Mexico**

On behalf of Burlington Resources Oil & Gas Company LP, please find enclosed our referenced application for the Allison Unit that has been set for hearing on the New Mexico Oil Conservation Division Examiner's docket now scheduled for 8:15 a.m. March 5, 2009. The hearing will be held in Porter Hall in the Division's offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico, 87505.

As an interest owner who may be affected by this application, we are notifying you of your right to appear at the hearing and participate in this case, including the right to present evidence either in support of or in opposition to the application. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at the hearing may preclude you from any involvement in this case at a later date.

Pursuant to the Division's Rule 1208.B, you are further notified that if you desire to appear in this case or to oppose the proposed risk charge (See Order R-11992), then you are required to file a Pre-Hearing Statement with the Division not later than 5:00 PM on Thursday, February 26, 2009, with a copy delivered to the undersigned. The Pre-Hearing Statement should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and the identification of any procedural matters that are to be resolved prior to the hearing.

Very truly yours,

OIL CONSERVATION DIVISION

IN THE MATTER OF THE HEARING CALLED  
BY THE OIL CONSERVATION DIVISION  
FOR THE PURPOSE OF CONSIDERING:

APPLICATION OF BURLINGTON RESOURCES  
OIL & GAS LP COMPANY TO AMEND  
ORDER R-9918 FOR A DOWNHOLE COMMINGLING  
REFERENCE CASE FOR ITS ALLISON UNIT PURSUANT  
TO DIVISION RULE 303.E,  
SAN JUAN COUNTY, NEW MEXICO.

CASE NO.

2003 JAN 15 PM 12 44

APPLICATION

Comes now BURLINGTON RESOURCES OIL & GAS COMPANY ("Burlington"), by and through its attorneys, Kellahin and Kellahin, and applies to the New Mexico Oil Conservation Division for the establishment of a downhole commingling *reference case* for the Allison Unit, San Juan County, New Mexico. Applicant, in the above-styled cause, in accordance with Division Rule 303.E, seeks to establish a downhole commingling reference case including the modification the notification rules on an area-wide basis authorization for downhole commingling of Dakota, Mesaverde, Fruitland Coal-Gas, and Pictured Cliffs production in the wellbores of existing or future wells drilled anywhere within the Allison Unit.

In support of its application, Burlington Resources Oil & Gas Company LP ("Burlington"). states:

(1) Burlington is the current operator of the Allison Unit, which includes all vertical intervals within the unit boundary. Said unit is "undivided" as to all working interest owners but is a "divided" unit for royalty and overriding royalty interest owners which results in different royalty participating areas for production from various pools.

(2) The Allison Unit contains 13,774.22 acres and is located in portions of Sections 7,8,9, 16-21, 28-31 T32N R6W and in portions of Sections 9-16, 23-26 T32N, R7W all as set forth in Division Order R-24, attached as Exhibit "A"

(3) The absence of the establishment of a "reference case" as provided in Rule 303.E, Division general state-wide Rule 303.C requires that administrative applications in areas of the Allison Unit containing non-participating areas for downhole commingling of gas production be submitted, processed and approved on a well by well basis including notification by certified mail return receipt requested to each interest owner where ownership is not common in the zones to be commingled.

(4) By Order R-9918, dated June 17, 1993, predates the Division current Rule 303.E for a "reference case" but did authorized the adoption of an administrative procedure for the downhole commingle of Blanco-Mesaverde and Dakota Pool production within the participating areas of the Allison Unit without additional notice to each affected interest owners within the Unit area.

(5) Thereafter, as a result of the entry of Order R-11363, dated April 26, 2000, the Basin-Dakota and the Blanco-Mesaverde Pools were approved as "pre-approved pools" for downhole commingling of production thus eliminating the need to justify pressure and economic criteria on a well-by-well basis.

(6) In additional, allocation formula are administered and approved by the District Office of the Division.

(7) Now Burlington seeks to Amend Order R-9918 to establish a downhole commingling reference case to extend the currently approved modified notification *rules* to the entire Allison Unit. Order R-9918 authorization downhole commingling of Dakota and Mesaverde gas production in the wellbores of existing or future wells drilled anywhere within Dakota and Mesaverde participating areas within the Allison Unit. Applicant seeks to expand this order to also (a) include the Picture Cliffs formations and Fruitland Coal-Gas Pool, (b) include non-participation areas acreage within the Allison Unit, and (c) delete additional notice to each affected interest owners anywhere within the unit area. 

(8) Currently, the Division still requires the applicant for downhole commingling for the Allison Unit to notify in writing to each interest owner in the non-participating areas *where ownership is* not common in the zones to be commingled.

(9) For the Allison Unit this rule requires notice to approximately 450 interest owners at current development levels.

-Page 3-

(10) In support of its request to establish a "reference case" to delete the requirement that each application for downhole commingling be sent to each interest owner affected. Burlington will provide evidence and testimony which will demonstrate that:

- (a) because this is an undivided unit for working interest but a "divided" unit for royalties and overrides with various participating areas, the interest ownership between any zones to be downhole commingled within a given wellbore in the Unit will therefore not be common;
- (b) pursuant to Division Rule 303. D, applicant is currently required to notify all interest owners in the non-participating areas of the Allison Unit *every time a* Form C-107-A is submitted to the Division which can involve as many as 450 different owners; and,
- (c) providing notice to each interest owner in the unit of subsequent downhole commingling application is unnecessary and is an excessive burden to the applicant.
- (d) Burlington, without objection, *has* successfully downhole commingled Mesaverde and Dakota production pursuant to Order R-9918,
- (e) Burlington contends that Order R-9918 should be expanded to include the Fruitland Coal-Gas Pool and the Pictured Cliff Pools
- (f) Burlington owns 97.561711% of the working interest in all formations in the Allison Unit.
- (g) Burlington and ConocoPhillips have previously received reference orders for notice purposes on the following Units:

(11) The ownership is not common between the pools/formations within the Allison Unit and notification in *this case* by certified mail return receipt constitutes satisfactory notification in all subsequent cases to each interest owner where ownership is not common in the zones to be commingled.

(12) Burlington therefore requests that the Division authorize that all future downhole commingling applications received by the Division after the effective date for amended order R-9918 for downhole commingling of production from wells within the Allison Unit may cite the order entered in this case as a reference case for:

**elimination of unnecessary notice:** such that any future or further notice concerning downhole commingling applications within this unit shall not be required to any owner (including royalty, overriding royalty or working interest owners) in instances where ownership are not common or percentages are not identical in the zones to be commingled

(13) Applicant requests that this matter be docketed for hearing on the Division's Examiner docket now scheduled for March 5, 2009.

(14) Notice of this application will be sent to all interest owners entitled to *receive* production within the unit.

WHEREFORE Applicant requests that this matter be set for hearing on March 5, 2009 before a duly appointed Examiner of the Oil Conservation Division and that after notice and hearing as required by law, the Division enter its order granting this application.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause coming on for hearing at 10:00 o'clock a.m., on the 14th  
day of June, 1950 before the Oil Conservation Commission pursuant to notice  
heretofore duly given by said Commission;

The Commission having heard and considered testimony adduced at said  
hearing, being fully advised in said premises:

FINDS that the Allison Unit Plan will in principle tend to promote  
the conservation of oil and gas, and a prevention of waste;

IT IS THEREFORE ORDERED:

That the order herein shall be known as the:

"ALLISON UNIT AGREEMENT ORDER"

SECTION 1. (a) That the Unit herein shall be known as the Allison  
Unit Agreement, and shall hereinafter be referred to as the Unit.

(b) That the plan by which the unit shall be operated  
shall be embraced in the form of unit agreement for the development and  
operation of the Allison Unit Area referred to in the petitioner's peti-  
tion and filed with said petition, and such plan shall be known as the  
Allison Unit Agreement Plan.

SECTION 2. That the Allison Unit Agreement Plan shall be and is  
hereby approved in principle as a proper conservation measure; provided,  
however, that notwithstanding any of the provisions, contained in said  
Unit Agreement, this approval of said agreement shall not be considered  
as waiving or relinquishing in any manner any rights, duties or obligations  
which are now or may hereafter be vested in the New Mexico Oil Conservation  
Commission by law relative to the supervision and control of operations for  
exploration and development of any lands committed to said Allison Unit  
Agreement or relative to the production of oil and gas therefrom.

## STATEMENT OF THE CASE

### APPLICANT:

Burlington, in accordance with Division Rule 303.E, seeks to amend a downhole commingling reference case to extend to the entire Allison Unit. Order R-9918 authorization downhole commingling of Dakota and Mesaverde gas production in the wellbores of existing or future wells drilled anywhere within the Dakota and Mesaverde participation areas of the Allison Unit. Applicant seek to expand *this* order to also (a) include the Picture Cliffs formation and Fruitland Coal-Gas Pool, (b) include non-participation areas acreage within the Allison Unit, and (c) delete additional notice to each affected interest owners within the unit area. The Allison Unit is located in portions of Sections 7, 8, 9, 16-21, 28-31, T32N, R6 W, and in portions of Sections 9-16, 23-26, T32N, R7W, NMPM. Said unit is located approximately 4.2 miles south of Allison, Colorado.

In support of its request to establish a "reference case" to delete the requirement that each application for downhole commingling be sent to each interest owner affected. Burlington will provided evidence and testimony which will demonstrated that:

- (a) because **this** is an undivided unit for working interest but a "divided" unit for royalties and overrides with various participating areas, the interest ownership between any zones to be downhole commingled within a given wellbore in the Unit will therefore not be common;
- (b) pursuant to Division Rule 303. D, applicant is currently required to notify all interest owners in the non-participating areas of the Allison Unit *every time a* Form C-107-A is submitted to the Division which can involve as many as 450 different owners;
- (c) providing notice to each interest owner in the unit of subsequent downhole commingling application is unnecessary and is an excessive burden to the applicant.
- (d) Burlington, without objection, *has* successfully downhole commingled Mesaverde and Dakota production pursuant to Order R-9918,
- (e) Burlington contends that Order R-9918 should be expanded to include the Fruitland Coal-Gas Pool and the Pictured Cliff Pools
- (f) Burlington owns 97.561711% of the working interest in all formations in the Allison
- (g) Unit.

Burlington and ConocoPhillips have previously received similar reference orders in 14 of their operated Federal Units.

The ownership is not common between the pools/formations within the Allison Unit and notification in *this case* by certified mail return receipt constitutes satisfactory notification in all subsequent cases to each interest owner where ownership is not common in the zones to be commingled.

Burlington therefore requests that the Division authorize that all future downhole commingling applications received by the Division after the effective date for amended order R-9918 for downhole commingling of production from wells within the Allison Unit may cite the order entered in this case as a reference case for:

**elimination of unnecessary notice:** such that any future or further notice concerning downhole commingling applications within this unit shall not be required to any owner (including royalty, overriding royalty or working interest owners) in instances where ownerships are not common or percentages are not identical in the zones to be commingled

Notice of this application has been sent to all interest owners entitled to *received notice*.
