**APPLICATION OF BP AMERICA
PRODUCTION COMPANY TO
AMEND DIVISION ORDER R-10604
FOR SURFACE COMMINGLING,
SAN JUAN COUNTY, NEW MEXICO.**

CASE NO. 14318

AFFIDAVIT OF CHERRY HLAVA

STATE OF TEXAS)
) ss.
COUNTY OF Harris)

I, Cherry Hlava, being first duly sworn on oath, states as follows:

1. My name is Cherry Hlava. I reside in Houston, Texas. I am the regulatory analyst employed by BP America Production Company ("BP") who is responsible for obtaining approval to amend Division Order R-10604 by adding an additional well for surface commingling in San Juan County, New Mexico.

2. BP seeks authorization to surface commingle Basin Fruitland Coal production from its Sammons Gas Com F Well No. 1S (API No. 30-045-33104) located 175 feet from the South line and 695 feet from the West line of Section 7, Township 29 North, Range 9 West, NMPM, San Juan County, New Mexico with wells approved by Order No. R-10604.

3. Division Order R-10604, dated May 29, 1996, authorized BP to surface commingle production from the Sammons Gas Com D Well No. 1 (API No. 30-045-21005) located 130 feet from the South line and 1425 feet from the West line; the Sammons Gas Com C Well No. 1 (API No. 30-045-08429) located 270 feet from the South line and 1450 feet from the West line; and the Sammons Gas Com B Well No. 1A (API No. 30-045-25021) located 230 feet from the South line and 790 feet from the West line, all in Section 7, Township 29 North, Range 9 West, NMPM, San Juan County, New Mexico.

4. BP now seeks to surface commingle the Sammons Gas Com F Well No. 1S in order to utilize the same production equipment, including compression, which would allow for the economic recovery of remaining gas reserves.

5. Attachment A to the Affidavit is Form C-103. As explained in the C-103,

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Case No.14318 Exhibit No. 1
Submitted by:
BP AMERICA PRODUCTION COMPANY
Hearing Date: May 14, 2009

production from each well will be metered prior to being commingled.

6. Attachment B is a schematic which illustrates how the production from each well is separated prior to the allocation meter and then sent through compression prior to entering the sales meter.

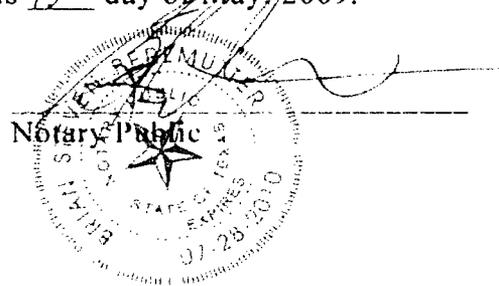

7. Attachment C to the Affidavit is Form C-107B.

8. The interest owners in the subject wells are not common and therefore a copy of the C-103 was sent to each party by certified mail. Attachment D is a list of the interest owners notified of this application. Attachment E is the Affidavit of Publication giving notice of this application.

9. Approval of this application is in the best interest of conservation, the prevention of waste and the protection of correlative rights.

FURTHER AFFIANT SAYETH NOT.

SUBSCRIBED AND SWORN before me on this 13th day of May 2009.

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

This sundry notice is filed to Amend Order R-10604. The current order allows for the surface commingling of 3 wells and stipulates yearly testing of each well to determine production allocation.

In January 2009 meters were added and therefore production from each of the 3 wells is metered individually prior to being commingled. BP America respectfully requests permission to add a 4th well - the Sammons GC F 1S (30-045-33104) to the surface commingle permit. (see attached schematic)

The production from each well that needs a separator is separated prior to the allocation meter. Production from each well will be metered prior to being commingled. The commingled production is then sent through compression prior to entering the sales meter. The difference between what is measured prior to commingling & what is sold through the sales meter is the fuel usage. This fuel usage is allocated back to each well based on the well production.

The working interest, royalty & overriding royalty interest owners in the subject wells is diverse therefore all are being notified by copy of this form - certified return receipt on March 20th.

No BLM notification - all wells are Fee

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit or an (attached) alternative OCD-approved plan .
